When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock do not immerse cord, plugs in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions, or is dropped or damaged in any manner.
- Return appliance to your nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.
- If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, on in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into wall outlet.
- To disconnect, turn any control to “off”, then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Do not obstruct the steam vent hole with any articles, e.g.a piece of cloth.
- Do not place the inner pot directly over flame for cooking.

SAVE THESE INSTRUCTIONS
THIS APPLIANCE IS FOR HOUSEHOLD USE ONLY

ADDITIONAL IMPORTANT SAFEGUARDS

- Avoid touching hot parts : outer lid, inner pot, inner lid and especially the steam vent hole.
- Do not switch on when the main body is empty.
- Make sure that heating plate and the magnetic switch are clean and dry whenever putting the inner pot into the cooker.
- Do not use sharp instruments to clean the inner pot as these will damage the nonstick coating.
- A short power-supply cord is to be provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.
- Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use.
Note:
A. A short power-supply cord (or cord set) is to be provided to reduce the hazards resulting from becoming entangled in or tripping over a longer cord.
B. Longer cord set or extension cords are available and may be used if care is exercised in their use.
C. If a long cord set or extension cord is used.
   (1) the marked electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance.
   (2) if the appliance is of the grounded type, the extension cord should be a grounding-type three-wire cord, and
   (3) the longer cord should be arranged so that it will not drape over the counter top or tabletop where it can be pulled on by children or tripped over accidentally.

This appliance has a polarized plug: (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

CAUTION: During use, the internal parts of the rice cooker and the area around the steam vent are HOT. Keep out of reach of children to avoid possible injury.

The following must be observed to use the product safely and correctly to prevent accident and dangerous situations.

- **Warning**
  - This means the action it describes may result in death or severe injury.

- **Caution**
  - This means the action it describes may result in injury or property damage.

### Warning

#### Do not use damaged power cord, plug or loose socket.
- It can cause an electric shock, short circuit or fire.
- If the plug were damaged, contact dealer or a service center.

#### Do not cover the automatic steam outlet or pressure weight with your hand or face.
- It can cause burns.
- Especially be careful to keep it out of reach of children.

#### Do not use the cooker near hot things such as stove, gas stove or direct ray of light.
- It can cause an electric shock, fire, transformation or discoloration.

#### Don’t spray or put any insecticide and chemicals.
- It can cause an electric shock or fire.
- In case cockroach or any insects get inside of the cooker please call a dealer or a service center.

### Do not

#### Please pay careful attention against water and chemicals.
- It can cause an electric shock or fire.

#### Do not open the top cover while in heating and cooking.
- It can cause burns.
- If you need to open the lid while cooking, keep pressing the cancel button for 2 seconds and confirm internal steam released.

#### Use a single socket with the rated current above 15A.
- Using several lines in one socket can cause overheating resulting in fire.
- Use the extension cord with the rated current above 15A.

#### Do not place the product near dusty places or near chemical substances.
- Do not place the product near combustible gas or near inflammables.
- It can cause an explosion or fire.

- It can cause the safety problem. |
| Do not touch the metallic surface of the inner pot and heating plate after cooking or warming.  
- It can cause burns. | Please contact dealer or service center when strange smell or smoke is occurred.  
- First pull out the power cord. |
| Do not use over the maximum capacity.  
- It can cause overflow or breakdown. | Use AC 120V only.  
- It can cause an electric shock or fire. |
| When warming, please close the cover and turn on the power.  
- It may cause rice discolor or and rice to stink. | Take out the Rice shovel before warming.  
- It may cause rice discolor or and rice to stink. |
| If possible, only use warming function when cooking white rice. Other foods are easily discolored. |
When cleaning the top cover of the product, make sure that no other substance or liquid goes into the buttons on the cover.

Please clean the body and other parts after cooking.

When cleaning the product, wash the oven and the detachable cover with neutral detergent. Then wipe out all the moisture before drying.

Be caution right after cooking, the steam/high heat might cause burn.
Name of each part

- Steam cap
- Clamp knob
- Top cover
- Top cover latch
- Cover packing
- Removable cover
- Mounting pin
- Separate Cover packing
- Inner pot (oven)
- Dew dish

How to assemble the steam cap

1. Hold the steam cap then assemble it to LOCK as arrow direction like picture.
2. After assembling steam cap surely, put it to mainbody.

Accessories

- Catalogue
- Rice scoop
- Rice measuring cup
- Negligent cleaning may cause a bad smell while keeping the rice warm. Clean the lid frequently (Clean the rice cooker after pulling out the plug and waiting until the main body cools.)
- Wipe the main body and the lid with a dry dishcloth. Do not use benzene or thinners.
- The rice water left on the inner lid or in the inner pot may form a starch film but it is harmless.

How to detach/attach detachable cover

1. How to detach detachable cover
   - Gentle pull the detachable cover.
   - Do not grab and pull the cover packing of the lid.
   - Do not touch the detachable cover during or right after cooking. It may be hot.

2. How to attach detachable cover
   - Referring to the photo, push the detachable cover gently to the lid for attaching.
   - Attach the detachable on the same direction as the phrase in the photo.
   - If you attach the detachable cover in the opposite direction, it may cause malfunction during cooking or warming.
How to clean

- Never use the hazardous chemical. (ex: benzene, varnish and so on)

1. Remove the steam cap by simply pulling it off from the lid after every use.
2. Turn towards the arrow to detach the steam cap.
3. Turn towards the arrow to detach the packing.
4. Separate the steam cap into 2 parts and soak them in lukewarm water. Wash with a sponge or a soft cloth.
5. Turn towards the arrow and stick it toward the groove the attach the steam cap.
6. Follow the photo to attach the part toward each arrow of attaching.
7. Attach the steam cap firmly to the lid and rotate on both directions to ensure that it is fixed properly.

Before cleaning, unplug the steam cap.
Before cleaning, unplug the detachable cover.
When storing, cooking, and warming, make sure to wipe out all the moisture off the outer part of the oven. It may cause outer coating to change color.
After cooking, wipe the water with a wet cloth because of the smell.
If there is any alien substance on the temperature sensor carefully wipe it out without damping the metal plate.

Functions of operating parts

- **Keep Warm / Cancel Button**: Use for warming or use it to canceling the selected function. Refer to page 22, 23

- **Preset Button**: Use it to preset the cooking time you want. Refer to page 20, 21

- **Display**: Use for choosing, Glutinous, Turbo, Steam, Mixed/Brown, Porridge etc. Refer to page 16

- **Menu Button**: Use it to selecting, Glutinous, Turbo, Steam, Mixed/Brown, Porridge etc. Refer to page 22, 23

- **Cook / Reheat**: Use it for cooking the rice or reheating the cooked rice right before eating. Refer to page 16, 22

- **Hrs / Min Buttons**: - Use the button to set up the preset time or change the preset time. Refer to page 13
- Use the button when selecting the step of the custom-made rice taste, customized warming mode and customized cooking function. Refer to page 18, 22, 23
- Use the buttons to set up the current time. Refer to page 13

*Press the buttons until you hear a buzzer sound. The design of this template may differ from the actual product.*

**Error Codes and Possible Causes**

When the product have any problem or use it inappropriately you can see the below mark:

- **E11**: When the inner pot is not placed into the unit.

- **E..**: Temperature sensor problem. (Consult the service center and dealer)

- **E03**: When the operation don't finish for a long time. (Consult the service center and dealer) Refer to page 25

- **13H0**: When setting preset time longer than 13 hours. Set the preset time within 13 hours. Refer to page 20, 21
1. Connect the power plug.

2. Press the “Preset/Hrs” button more than 2 seconds.

3. Set the current time using the “Preset/Hrs”, “Menu/Min” button. Press the button longer than 1 second.
   - Make sure not to change A.M. and P.M.
   - Each time you press “Preset/Hrs” button, the time increases after 1 hour.
   - Each time you press “Menu/Min” button, the time increases after 1 minute.
   - In case of 12:00 at noon, it will be displayed 12:00 P.M.

4. It will automatically start in 7 seconds.
   - Once time is set, colon(;) does not blink and set time is displayed with a buzzer.
   - Set time is stored pressing “Cook/Reheat” buttons.

### How to set up the current time during keep warming
1. If you want to change the current time during keep warming, press “Cancel” button and then set up the current time.
2. When finish setting the current time, press “Heat/Reheat” button. At the time “DH” sign is displayed.

### About Lithium battery
1. This product contains lithium battery for improving blackout compensation and time. Lithium battery lasts for 3 years depending on using condition.
2. When current time does not be displayed on the screen, it means the battery is exhausted. It should be changed new one.

### What is blackout compensation
1. This product memories previous condition and process. After finishing blackout, it operates immediately.
2. If blackout happens during cooking, the cooking time will be delayed depending on blackout time.
3. If the rice became cold because of blackout, warming will be cancelled.
BEFORE COOKING RICE

1. Clean the inner pot and remove any moisture.
   - Clean the inner pot with a dishcloth.
   - Using a rough sponge may cause peeling of the inner surface of the inner pot.

2. Using the measure cup, place the rice in a separate bowl per servings.
   - Rice level with the top of the measuring cup corresponds to person.
     (Example: 1 persons for 1 cups, 3 persons for 3 cups)

3. Clean the rice in a separate container until the water becomes clear.

4. Put the well cleaned rice into the oven.

5. Adjust the water amount in accordance with the menu.
   - Place the inner pot on a flat surface and adjust the water amount up to the water level line.
   - The water level line is marked on the inner pot.
   - Adjustment of water height.
     - Glutinous: Adjust water based on 'Glutinous' water level line. Max. 3 persons for glutinous are available.
     - Mixed/Brown, GABA: Adjust water base on "Mixed/Brown, GABA" water level line. Max. 2.5 persons for Mixed/Brown and GABA are available.
     - Porridge: Adjust water base on "Porridge" water level line. Max. 1 persons for Porridge available.

6. Put the inner pot into the main body and cover the inner lid.
   - Completely insert the inner pot with care.
   - If alien materials like rice are attached to the bottom of the inner pot, rice may not cook or the cooker may not work correctly.
### How to Cook Tasty Rice

Observe the following instructions for tasty rice:

| Measure rice with a measuring cup. Pour water up to the water level line of the inner pot. | • Always measure rice correctly with the measuring cup. (The rice amount measured by a commercial rice container may vary depending on products.)
• Adjust water amount to the water level line after placing the inner pot on a flat surface. | If the amount of water is incorrect for rice amount, the rice may be undercooked or scorched. |
|---|---|---|
| Store rice correctly. | • Purchase rice in as small quantity as possible and avoid direct sunlight or hot and humid places to prevent rice moisture from being vaporized.
• For dried rice unpacked for a long time, it is better to cook with more water (about a half water level line). | If rice was dried up, it may be hard or undercooked. |
| It is better to make the timer cooking short. | • For dried-up rice, avoid timer cooking if at all possible and add water (about a half water level line). | Timer cooking over 10 hours or with dried rice may cause rice to be undercooked, scorched or cooked unevenly. |
| It is better to make the warm time short. | • It is recommended to keep rice warm for less than 12 hours. | Keeping rice warm for a long time may cause it to be discolored or develop an odor. |
| Always clean the cooker. | • Clean the cooker frequently. In particular, wipe alien materials from the lid frequently. | Negligent cleaning may cause an odor while keeping rice warm. |
**HOW TO COOK**

1. Press the “Menu/Min” button and select the desired menu.
   - Whenever pressing the “Menu/Min” button, the menu is changed in sequence of Glutinous, Turbo, Steam Mixed/Brown, Porridge.
   - Once Glutinous rice, Turbo and Mixed/Brown rice are cooked, their menus are memorized. So, you may not select the menus for the same menu.

2. Press the “Cook/Reheat” button to start cooking.

3. Steaming boiled rice 4 (example: Glutinous rice)
   - The remaining cook time is shown on the display from the steaming boiled rice process.
   - The remaining time may vary depending on the menu.

4. Completion of cooking
   - When the cooking is completed and a beep sounds, the Keep Warm function starts.
   - When rice is cooked, quickly stir the rice. If the rice is not stirred, the rice may be discolored or develop an odor.
   - Do not press the “Cancel” button while cooking. The cooking will be canceled.

Customized Cooking Function

It is Cuckoo’s unique technology to adjust the stages of the cooking temperature according to customer's taste. The initial value is set “0”. Change the value depending on the situation.
- High value setting: Setting for Mixed Rice, Dried Rice, or Glutinous Rice.
- Low value setting: Setting for newly harvested rice or if you don’t like glutinous rice.

How to use Customized Cooking Function

If you press stand by or the menu button for more than 5 seconds, with low sound it will change to MY MODE. During this time, all the menu available from MY MODE will appear.

1. Cuckoo Customized Cooking Window
   If you press stand by or the menu button for more than 5 seconds, it will change to MY MODE.

2. Stage Setting Mode
   Press the “Preset/Hrs” button and the display part is changed in sequence of 0 → -1 → -2 → -1 → 0.

3. Cuckoo Customized Cooking Window
   If you press the “Cook/Reheat” button, the configured temperature is automatically entered along with a buzzer sound.
   (If you press WARMING/CANCEL button or there is no input for more than 7 second, it go back to stand by mode.)

1. The My Mode function is applied Glutinous rice, Turbo, Mixed/Brown rice, menus in a batch.
2. Based on “F: 0”, set the stage of the cooking temperature according to your taste. Rice may be scorched in the high cooking stage.
3. After setting each stage, cooking status may vary according to rice status in cooking status and water content percentage.
How to use Steam function

1 Press the “Menu/Min” button and select Steam menu.
   ► If the Steam menu is selected, the display shows 20 min.

2 Press the “Preset/Hrs” button to set the desired time.
   ► If you press the “Preset/Hrs” button, the Steaming time increases by 5 minutes.
   ► If you hold the button, the menu will change consecutively.
   ► The Steaming time can be configured up to 10~60 minutes.

3 Press the “Cook/Reheat” button to start the Steam menu.
   ► If the Steam function starts, the cooking status is marked and the remaining time is shown on the display.
How to preset the timer

1. Check if the current time and the menu are correct.
   - Refer to page 13 for the time setting method.
   - If the current time is not set correctly, the presetting time also be incorrect. (Make sure not to change A.M. and P.M.)
   - If the menu is incorrect, press the “Menu” button and select the desired menu.

2. Select menu with Menu/Min Selection button.
   - No preset function available for steam cooking menu.

3. Press the “Preset/Hrs” button.
   - The default for set time is 6:30 A.M. If you want to preset at this time, you do not need to set the preset time.
   - If you press “Preset/Hrs” button, previously inputted preset time is displayed and the timer lamp will be on.
   - Set the preset time within 7 seconds after pressing “Preset/Hrs” button. If you want to preset “Preset/Hrs” while keeping warm, cancel keep.

4. Set the presetting time.
   - Set the presetting time with the “Preset/Hrs” and “Menu/Min” button. If the preset time is already correct, you do not need to set time again.

   Example) When you want to eat the rice at 7:30 A.M. Press the “preset/Hrs” button and then press the “Menu/Min” button, set time at 7 hours. And press the “Menu/Min” button, set time at 30 minutes. (The unit for the “Preset/Hrs” button is 1 hour and the unit for the “Menu/Min” button is 1 minute.)

5. Press the “Cook/Reheat” button.
   - When finish presetting, the time lamp will be on.
   - Preset cook will be completed at the timer.
   - Once cook is completed with preset time, preset time is stored in the memory. Don’t need to set up time again.
   - If a small amount of rice is cooked, cook could be finished earlier than time you set up.
Preset time will be changed automatically and displays " " when setup time exceeds 13 hours.

Ex) If you want to finish cooking at 7AM, 14 hours after from now, the finishing cooking time will be changed at 6AM, 13 hours after from now. At this time, " " sign is displayed.

If you want to finish cooking at 12:00 at noon, set time 12:00 PM. Use preset mode to finish cooking from 1 hour later to 13 hours later.

If you want to check current time, press Hrs or Min button. Current time will be displayed for 2 seconds.

TO KEEP WARM THE COOKED RICE TASTY

For a Meal

If you want warm rice, press the Keep “Cook/Reheat” button to start the reheating. After 9 minutes, the reheated rice tastes as it has been just cooked.

1. On Keeping Warm

‘3H’ on the display indicates that the cooked rice is kept warm for 3 hours. If you press the Hr. button while keeping rice warm, the elapsed time is shown on the display. If pressing the “Menu/Min” button, the current time is displayed.

2. On Reheating

The ‘0’ mark turns round and round while reheating.

3. Completion of Reheating

After reheating, the Keep Warm function restarts and the elapsed warm time is displayed.

Cautions for Keeping Warm

- It is recommended to evenly stir the cooked rice after cooking. The rice taste is improved. (For a small quantity of rice, pile up the rice on the center area of the inner pot to keep warm)
- Keeping rice warm for a long time may cause the rice to be discolored or develop an odor. So, it is recommended to keep warm for less than 12 hours. 24 hours after keeping the cooked rice warm, the passed time blinks on the display. The warming status of mixed/brown rice is worse than plain rice. Do not keep it warm if at all possible.
- Do not keep the rice scoop in the inner pot while keeping the cooked rice warm. In particular, a wooden scoop may generate bacteria and result in the development of an odor. The rice on the edge of the inner pot or the bottom of the steam outlet may turn plain and swollen. In this case, stir and mix the rice.
- Do not mix too small quantity of rice or leftovers with the rice under keeping warm. Doing so may develop an odor. (Use a microwave oven for the cold rice.)
- Odor Develops While Keeping Warm

- Clean the cooker frequently. In particular, negligent cleaning of the lid part may develop an odor while keeping warm because of the proliferation of bacteria.
- Even though the product is apparently clean, bacteria can be present. If strong odors develop, boil water to sterilize. Fill with the water up to the plain rice water level line for 2 persons and add a big spoonful of ginger. After that, close the lid and press the Cook/Reheat button to boil the water. Press the Cancel button 30 ~ 40 minutes after boiling. After boiling, always clean the inner pot.
- If you keep the cooked rice warm without cleaning the inner pot after steaming food, an odor may penetrate the rice.

To change the current time while keeping warm, refer to Page 13.
- The frequent use of the Reheat function may cause the cooked rice to be discolored or dried. Use it once or twice per day.
- If a separate heating appliance or gas burner is used to cook rice, put the cooked rice into the cooker and press the Keep “Cook/Reheat” button to keep the rice warm. At this time, ‘0H’ is shown on the display. (Like this, transferring hot rice to a cold cooker may cause the rice to be discolored or develop an odor.
- 24 hours after keeping the cooked rice warm, the passed time blinks on the display to give the long time warning.
How to Adjust the Warm Temperature

If an odor develops, water drops are formed or the cooked rice is discolored despite frequent cleaning and the use of sterilized water. The warm temperature may be incorrect. Adjust the temperature.

1. Press the "Menu/Min" button in Keep Warm or Standby mode at length over 5 sec. The display is changed and a buzzer sounds as shown in the above figure. In the figure, \( T \) means the current warm temperature.

2. The factory setting temperature may be different from that of this manual.

Press the "Preset/Hrs" button to change the display part in turn of \( T4C \rightarrow T5C \rightarrow T6C \rightarrow T7C \rightarrow T8C \rightarrow T9C \rightarrow T0C \rightarrow \ldots \)

After setting the desired temperature, press the "Cook/Reheat" buttons to automatically enter the value. At this time a buzzer sounds. If you press the Cancel button or 7 seconds pass with no input, the function is cancelled and the mode returns to Standby mode.

How to adjust the Customized Warm function

This function is used in case that water runs when you open the inner lid while keeping warm or the cooked rice is swollen up.

1. If plenty of water runs out when you open the lid: Press the "Preset/Hrs" button to raise the setting mode by 1 or 2 stages.
2. If the cooked rice is swollen around the edge of the rice: Press the "Preset/Hrs" button to lower the setting mode by 1 or 2 stages.

Press the "Menu/Min" button in My mode. The display part is changed and a buzzer sounds as shown in the above figure. In the figure, " \( d \) \( 0 \)" means the default value.
If there is a problem with your cooker, check the following details before requesting service to your dealer. Sometimes the cooker may not operate as desired if used incorrectly.

요리안내

이유식

단호박서프

준비물 재료
단호박 100g, 참가무 1/2개, 곡물 1/2컵, 소금 약간, 우유 약간

이렇게 만드세요
① 단호박은 쿠션한 쪽을 얇게 자르고, 베이스를 제거한 후 얇게 쌓아 들인다.
② 참가무는 배 whore 쪽을 얇게 쌓아 들인다.
③ 라면을 뿌린 후, 베이스를 뿌린 후 참가무를 올리고 참가무 위에 뿌린 피자를 얹는다.
④ 소금을 적당한 양을 넣고 주시다.

고구마사과죽

준비물 재료
고구마 70g, 사과 1/4개, 곡물 1/2컵, 소금 약간

이렇게 만드세요
① 사과를 고구마로의 크기로 썰어 입으로 섞어 주시시오.
② 사과를 곡물 1/4개를 넣어 주시시오.
③ 참가무를 넣고 과일을 섞어 입으로 섞어 입과 과일간에 섞어 주시시오.
④ 고구마를 과일과 섞어 입으로 섞어 주시시오.

참고
