CUCKOO ELECTRONICS CO., LTD.
When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock do not immerse cord, plugs in water or other liquid.
- Close supervision is necessary when this appliance is used by or near children. This appliance is not intended for use by young children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with the appliance.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions, or is dropped or damaged in any manner. Return appliance to your nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.
- If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, on in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into wall outlet. To disconnect, turn any control to “off”, then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Do not obstruct the steam vent hole with any articles, e.g., a piece of cloth.
- Do not place the inner pot directly over flame for cooking.

SAVE THESE INSTRUCTIONS.
ADDITIONAL SAFEGUARDS

- Avoid touching hot parts: outer lid, inner pot, inner lid and especially the steam vent hole.
- Do not switch on when the main body is empty.
- Make sure that heating plate and the magnetic switch are clean and dry whenever putting the inner pot into the cooker.
- Do not use sharp instruments to clean the inner pot as these will damage the non-stick coating.
- A short power-supply cord is to be provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.
- Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use.

SHORT CORD INSTRUCTIONS/SPECIFICATIONS

Note: A. A short power-supply cord (or cord set) is to be provided to reduce the hazards resulting from becoming entangled in or tripping over a longer cord.
B. Longer cord set or extension cords are available and may be used if care is exercised in their use.
C. If a long cord set or extension cord is used.
   (1) the marked electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance.
   (2) if the appliance is of the grounded type, the extension cord should be a grounding-type three-wire cord, and
   (3) the longer cord should be arranged so that it will not drape over the counter top or tabletop where it can be pulled on by children or tripped over accidentally.

CAUTION: During use, the internal parts of the rice cooker and the area around the steam vent are HOT. Keep out of reach of children to avoid possible injury.

CAUTION FOR SAFETY

- The following must be observed to use the product safely and correctly to prevent accident and dangerous situations.
- ‘Warning’ and ‘Caution’ are different as follows.

⚠️ **Warning**
This means that the action it describes may result in death or severe injury.

⚠️ **Caution**
This means that the action it describes may result in injury or property damage.

- **Warning**
Do not use the cooker near hot things such as stove, gas stove or direct ray of light.
- It can cause an electric shock, fire, transformation or discoloration. Please check the power cord or plug frequently.

- Keep the cooker out of reach of children.
- It can cause burns, electric shock or injury.

- Do not over unplug and plug the power cord over and over.
- It can cause an electric shock or fire.

- Use a single socket with the rated current above 15A.
- Using several lines in one socket can cause overheating resulting in fire. Please check the power cord or plug frequently.
- Use the extension cord with the rated current above 15A.

- **Warning**
Please pay careful attention against water and chemicals.
- It can cause an electric shock or fire.

- Do not let the cooker contact any water by sprinkling water on the cooker.
- It can cause an electric shock or fire.
- If it contacts water, please separate power cord and contact dealer or service center.

- Do not use damaged power cord, plug or loose socket.
- Please check the power cord or plug frequently because it can be damaged to circumstance or using method. Also, the damaged one can cause an electric shock or fire.
- It can cause an electric shock, short circuit or fire.
- If the plug were damaged, contact dealer or a service center.

- Remove an alien substance on plug with the clean cloth.
- It can cause fire. Please check the power cord and plug frequently.
CAUTION FOR SAFETY

**Warning**

- Do not alter, reassemble, disassemble or repair.
  - It can cause fire, electric shock or injury.
  - For repair, contact dealer or the service center.

- Do not place the product near dusty places or near chemical substances.
  - Do not place the product near combustible gas or near inflammables.
  - It can cause an explosion or fire.

- Be careful both plug and power cord not to let animal bite or to be shocked by sharp metal materials.
  - Damages by impact can cause an electric shock or fire.
  - Please check the power cord or plug frequently.

- Use product at the flat place.
  - Do not use it on the cushion.
  - Please avoid using it on an unstable location.
  - It can cause deformation or a fire. Please check the power cord and plug frequently.

- Do not use pots that are not designed for the cooker.
- Do not use abnormal pot and do not use without inner pot.
  - It can cause an electric shock or fire.

- Do not change, extend, or connect the power cord without the advice of a technical expert.
  - It can cause an electric shock or fire.

- Do not open the top cover while in heating and cooking.
  - It can cause burns.

- Do not bend, tie or pull the power cord by force.
  - It can cause an electric shock or short circuit resulting in fire.
  - Please check the power cord and plug frequently.

- Don't spray or put any insecticide and chemicals.
  - It can cause an electric shock or fire.
  - In case cockroach or any insects get inside of the cooker please call a dealer or a service center.

- Do not move the product by pulling or using the power cord.
  - Electric short might cause fire.

**Do not**

- Do not use it without the inner pot.
  - It can cause an electric shock or malfunction.
  - Do not pour rice or water without the inner pot.
  - If rice or water gets in then do not turn the product over or shake it please contact to dealer or service center.

- Products such as metal rods inside. Do not insert alien substance.
  - It can cause an electric shock or fire.

- Be careful both plug and power cord not to let animal bite or to be shocked by sharp metal materials.
  - Damages by impact can cause an electric shock or fire.

CAUTION FOR SAFETY

⚠️ Warning 🙌 (Remember)

Do not press heavy things on the power cord.
- It can cause an electric shock or fire. Please check the power cord and plug frequently.

Do not plug or pull out the power cord with wet hands.
- It can cause an electric shock.

Be careful not to harm your hand when opening the cover.
- Do not leave the cover opened. It might cause accident.

Do not use on a rice chest or a shelf.
- Do not press the power code between furniture. It can cause an electric shock resulting in fire. Please check the power cord or plug frequently.
- When using on furniture automatic steam releasing can cause damage, fire, and an electric shock.

Clean any dust or alien substance off the temperature sensor, heating plate and inner pot.
- It can cause a system problem or fire.

Do not cover the automatic steam outlet or pressure weight with a duster, a towel or a pron, etc.
- It can cause a transformation or a breakdown.

Caution 🙏 (Do not)

Do not touch the metallic surface of the inner pot and heating plate after cooking or warming.
- It can cause burns.

Take out the Rice shovel before warming.
- It may cause rice discolor or rice to stink.

If possible, only use warming function when cooking white rice. Other foods are easily discolored.

Do not use over the maximum capacity.
- It can cause overflow or breakdown.
- Do not cook over capacity stated for cooking of chicken soup and congee.

When warming, please close the cover and turn on the power.
- It may cause rice discolor or rice to stink.

Please surely pull out the plug when not in use.
- It can cause an electric shocks or fire.
Do not place on rough top or tilted top.
- It can cause burns or malfunction.
- Be careful to install the power cord which does not disturb to pass.

Don’t use for various purpose for inner pot, and do not heat up the inner pot on the gas stove.
- It can cause the deformation of the inner pot.
- It can cause to spill the inner coating.

Do not drop or impact the cooker.
- It can cause the safety problem.

Please use the cooker for an original purpose.
- It can cause the transformation or smell.

Please surely pull out the plug when not in use.
- It can cause electric shock or fire.
- Use AC 230V only.

Please contact dealer or service center when strange smell or smoke is occurred.
- First pull out the power cord.
  And contact dealer or the service center.

When you pull out the power plug, don’t pull the power cord. Please, surely pull out the power plug.
- If you inflict the impact on power cord, it can cause an electric shock or fire.

Please clean the body and other parts after cooking.
- It can cause the transformation or smell.
How to use

1. Measure the plain rice volume
   Use the measuring cup provided. Each cup of uncooked plain rice normally can give about 2 cups of cooked rice. Do not cook rice outside the range indicated inside the pot. The rice cooker cannot perform the normal rice cooking function outside the specified range.

2. Wash the rice gently and thoroughly
   Wash the rice gently and thoroughly. We advise you to use a separate container during washing to avoid damaging the non-stick coating of the inner pot.

3. Add water according to the marking inside the pot
   Pour the pre-washed rice into the inner pot and add water according to the marking indicated inside the pot, then smooth the rice surface. The level marked inside the pot is the fill line. FILL LINE: Do Not Fill Past This Point When adding more water the rice will become softer, and less water will result in dryer/harder rice.

4. Check to ensure the pot is in good contact
   Before connecting the power, ensure the outside of the inner pot is dry and clean and that no foreign object is on the heating plate or the magnetic switch. Close the lid firmly until it gives a ‘click’ sound to avoid improper rice cooking.

5. Connect to the main power supply
   Connect the unit to the outlet. The light of the ‘WARM’ mode will be on.
How to use

6 Press the control button to start cooking
Press down the control button and the light of the ‘COOK’ mode will be on to indicate that rice cooking is in progress.

8 Stir the rice
For best results, open the lid after the light of the ‘WARM’ mode goes on and stir the rice to allow excessive steam and water to escape. Then close the lid firmly to continue the keep warm function.

7 Press the control button to start cooking
Press down the control button and the light of the ‘COOK’ mode will be on to indicate that rice cooking is in progress.

9 Power off
To stop the keep warm function, simply unplug the unit from the outlet.

HOW TO CLEAN

The inner pot and inner lid:
1. Before cleaning, unplug the unit from the outlet and let it cool down completely.
2. Remove and clean the inner lid and the inner pot after every use.
   Soak them in lukewarm water.
3. Wash with a sponge or a soft cloth.
4. Do not use any abrasive cleansers, steel wool or metal utensils to clean the non-stick inner pot as these will damage the non-stick coating.

The main body and outer lid:
1. Before cleaning, unplug the unit from the outlet and let it cool down completely.
2. Use only a damp cloth to wipe the outside of the unit.
   Do not immerse the main body in water.
HOW TO USE COOKING SILICONE PAD

1. Washing the rice
Wash the rice thoroughly in the separate bowl.

2. Put in the rice
Place the cooking silicone pad properly on the bottom, then pour in the washed rice slowly into the bowl.

3. Adjust the water quantity

The state of the cooking silicone pad.

2. Cautions while using the cooking silicone pad.

1. The cooking silicone pad is not harmful to human health. It is safe to use.
2. Let the rice settle in its own stream (for 15min to 20min) after cooking, then make sure to take out the cooking silicone pad after mixing the rice thoroughly. If you leave the cooking silicone pad inside when warming the rice, it may cause bad odor or spoiling of the rice.
3. Wash the cooking silicone pad cleanly before using. If not, the foreign substance left in the cooking silicone pad may cause bad odor or spoiling of the rice.
4. To clean the cooking silicone pad, soak it in the water and rub it smoothly with the sponge.

※ It may cause melanizing on the parts (in the middle of the oven and outer side) where cooking silicone pad don’t reach.
