IMPORTANT SAFEGUARDS

1. Read all instructions before using this appliance.
2. Do not touch hot surfaces. Use handles or knobs.
3. To protect against fire, electric shock and/or injury to persons do not immerse cord, plugs, or Pressure
   Cooker in water.
4. Close supervision is necessary when this appliance is used by or near children.
   This appliance is not intended for use by young children without supervision.
5. Unplug from outlet when not in use and before cleaning.
   Allow appliance to cool before putting on or taking off parts, and before cleaning the appliance.
6. Do not operate any appliance with a damaged cord or plug, after the appliance malfunctions, or has
   been damaged in any manner. Return the Appliance to the nearest authorized service facility for
   examination, repair or adjustment.
7. The use of accessory attachments not recommended by the appliance manufacturer may result in fire,
   electric shock, and/or injury to persons.
8. If the supply cord is damaged, it must be replaced by a special cord or assembly available from the
   manufacturer or your service agent.
9. Do not use outdoors.
10. Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.
11. Do not place on or near a hot gas, electric burner, or in a heated oven.
12. Always attach the plug to the appliance first, then plug the cord into the wall outlet. To disconnect, or
    set all control to “off”, then remove the plug from the wall outlet.
13. Do not use this appliance for other than its intended use.
14. Extreme caution must be used when moving an appliance containing hot oil or any hot liquids.
15. Oversized foods, metal foil packages, or utensils must not be inserted into the appliance as they are a
    risk of fire or electric shock.
16. A fire may occur if the appliance is covered or touching flammable material, including curtains,
    draperies, walls, etc while in operation.
17. To reduce the risk of electric shock, cook only in the provided removable container.
18. This appliance cooks under pressure. Improper use may result in scalding injury.
    Before operating the unit, properly secure and close the unit. See “Operating Instructions.”
19. Do not cook foods such as applesauce, cranberries, cereals, macaroni, spaghetti, or other foods.
    These foods tend to foam, froth, and sputter, and may block the pressure releasing device.
20. Before use always check the pressure releasing device for clogging.
21. Do not open the pressure cooker until the unit has cooled and internal pressure has been reduced.
    See “Operating Instructions.”
22. Do not use this pressure cooker to fry in oil.
23. Be sure that handles are assembled and fastened properly before each use.
    Cracked, broken or charred handles should be replaced.

SAVE THESE INSTRUCTIONS
THIS APPLIANCE IS FOR HOUSEHOLD USE ONLY

ADDITIONAL IMPORTANT SAFEGUARDS

WARNING: This appliance generates heat and releases steam during use. Use proper precaution to
prevent risk of burns, fires, other injuries, or damage to property.

1. Keep hands and face away from the Pressure Release Valve when releasing pressure.
2. Take extreme caution when opening the Lid after cooking. Severe burns can result from steam inside.
3. Never open the Lid while the unit is in operation.
4. Do not use without the inner Pot in place.
5. Do not cover the Pressure Valve with anything as an explosion may occur.
6. Do not touch the inner pot nor any heating parts, immediately after use.
   Allow the unit to cool down completely first.
HOW TO USE EXTENSION CORD

Note:
A. A short power-supply cord (or cord set) is provided to reduce the hazards from entanglement by a longer cord.
B. Extension cord should be used properly.
C. Extension cord usage for the rice cooker:
   (1) The correct rated voltage should be used for the rice cooker.
   (2) If the appliance is set on the ground, the extension cord should also be set on the ground.
   (3) The cord wires and extension cord should always be arranged to prevent hazards to children.

This appliance has a polarized plug: (one blade is wider than the other).
As a safety feature, this plug will fit in a polarized outlet only one way.
If the plug does not properly fit in the outlet, turn the plug over.
If it still does not fit, contact a qualified electrician.
Please, keep this safety feature.

SAFETY PRECAUTIONS

• Read the following product safety guide carefully to prevent any accidents and/or serious danger.  
  • ‘Warning’ and ‘Caution’ are different as follows.

| Warning | This means that the action it describes may result in death or severe injury. |
| Caution | This means that the action it describes may result in injury or property damage. |

• This sign is intended to remind and alert that something may cause problems under the certain situation.  
  • Please read and follow the instruction to avoid any harmful situation.

- Indicates a prohibition

- Indicates an instruction

Do not cover the automatic steam outlet or pressure weight with your hand or face.
• It can cause burns.
• Especially be careful to keep it out of children’s reach.

Do not use the cooker near hot things such as stove, gas stove or direct ray of light.
• It can cause an electric shock, fire, deformation, malfunction, or discoloration. Please check the power cord and plug frequently.

Do not alter, reassemble, disassemble or repair.
• It can cause fire, electric shock or injury.
• For repair, contact dealer or service center.

Use a single socket with the rated current above 15A.
• Using several lines in one socket can cause overheating or fire. Please check the power cord and plug frequently.

Do not use rice cooker at a place where dust is trapped or chemical material is located.
• Do not use any combustible gas or flammable materials nearby a product.
• It can cause explosion or fire.

Do not use damaged power cord, plug, or loose socket.
• Please check the power cord frequently for damage.
• Serious damage can cause electric shock or fire.
• If the plug is damaged, contact the dealer or a service center.

Do not clean the product with water or pour water in the product.
• It can cause an electric shock or fire.
• If it contacts water, please separate power cord and contact dealer and service center.

Do not use the inner pot.
• It can cause electric shock or malfunction.
• Do not pour rice or water without the inner pot.
• If rice or water gets in then do not turn the product over or shake it, please contact the dealer or service center.

Do not turn the Lock/Unlock Handle to “Unlock” while cooking.
• The hot steam or any hot content within the cooker can cause burns.
• After you finish the cooking do not try to open the cooker by force until the steam is completely exhausted.

Do not insert metal objects such as pins and wires or any other external substances in the automatic steam exhaust outlet or any other slot.
• It can cause an electric shock or fire.
• Especially be careful to keep it out of reach of children.

Keep the cooker out of reach of children.
• It can cause burns, electric shock or injury.

Don’t spray or put any insecticides or chemicals.
• It can cause an electric shock or fire.
• If cockroaches or any insects get inside the cooker, please call a dealer or a service center.

Don’t let foreign substances such as needle, cleaning pin, or metal get in or block the in/outlet pipe or gape.
• It can cause an electric shock or fire.
• Do not put a cleaning pin in a gap or a hole of the product except when deairing a steam outlet.

Do not open the LID while in heating and cooking.
• It can cause burns.
• If you need to open the lid while cooking, keep pressing the cancel button for 2 seconds and confirm internal steam released completely turning the pressure weight over.

Remove a foreign substance on the cord and plug with a clean cloth.
• It can cause fire. Please check the power cord and plug frequently.

Be careful that both the plug and power cord are not to be shocked by animal attack or sharp metal materials.
• Damages by impact can cause an electric shock or fire.

Do not alter, reassemble, disassemble or repair.
• It can cause fire, electric shock or injury.
• For repair, contact dealer or service center.

Use a single socket with the rated current above 15A.
• Using several lines in one socket can cause overheating or fire. Please check the power cord and plug frequently.

Please pay careful attention against water and chemicals.
• It can cause a electric shock or fire.

Do not use rice cooker at a place where dust is trapped or chemical material is located.
• Do not use any combustible gas or flammable materials nearby a product.
• It can cause explosion or fire.

Do not use damaged power cord, plug, or loose socket.
• Please check the power cord frequently for damage.
• Serious damage can cause electric shock or fire.
• If the plug is damaged, contact the dealer or a service center.

Do not clean the product with water or pour water in the product.
• It can cause an electric shock or fire.
• If it contacts water, please separate power cord and contact dealer and service center.

Do not use the inner pot.
• It can cause electric shock or malfunction.
• Do not pour rice or water without the inner pot.
• If rice or water gets in then do not turn the product over or shake it, please contact the dealer or service center.

Do not turn the Lock/Unlock Handle to “Unlock” while cooking.
• The hot steam or any hot content within the cooker can cause burns.
• After you finish the cooking do not try to open the cooker by force until the steam is completely exhausted.

Do not use rice cooker at a place where dust is trapped or chemical material is located.

</tbody>
</table>

*Please check the power cord and plug frequently.*

As it can cause damage, fire, and/or electric shock.

- When using on furniture be cautious of steam release indicated level of water usage.
- Remaining hot steam can cause burns when you tilt the pressure weight while and right after the cooking.
- Please call customer service if the inner pot coating peels off. Use tough scrubber, metallic scrubber, brush, abrasive metallic etc.
- The hot steam or any hot content within the cooker can cause burns.
- Remaining hot steam can cause burns when you tilt the pressure weight while and right after the cooking.
- Please, do not pull out the clean steam vent by force.
- It can cause deformation by remaining pressure.
- Please, safely pull out the power plug.
- Water can overflow if the amount of water in a pot exceeds the indicated level of water usage.
- Please start cooking in a status that steam control cap is installed completely.
- It can cause alteration or smell.
- Depending on the using methods or user’s circumstances, inner pot coating might rise.
- Please call the customer service for those cases.
- Please, do not pull out the clean steam vent by force.
- Do not hold the cooker by the inner pot handle. It can cause problems and danger. There are portable handles on the bottom right and left side of the cooker. Hold the handles with both hands and move it carefully.

Do not use water that is left behind from dew.
NAME OF EACH PART

Name of each part

Soft Steam Cap

Pressure Weight
Always keep it horizontal. It stabilizes steam inside of the oven. Pressure weight is twisted, it releases steam.

Automatic Steam Exhaust Outlet (Solenoid valve)
When finished cooking or during warming, steam is automatically released.

Lock/Unlock Handle
(Set the handle to lock when cooking or warming the rice)
The handle has to turn to “Lock” for operation.

Lid Clamp
Turn handle to ‘Unlock’, and then press Clamp knob to open.

Control Panel

Standby Power Blocking Switch
When the power is not supplied after the power cable is connected, check if the switch is (ON).
- Enabled: (ON) - Disabled: (OFF)
(The standby power is blocked, saving the energy)
※ In case of a blackout during cooking, steam from a rice cooker will be released automatically.

Cleaning Pin
(Attached on the bottom of the unit)
**HOW TO CLEAN**

- To prevent foul odor clean the lid assy after the rice cooker has cooled and the rice cooker is unplugged.
- Clean the body of rice cooker and the cover with a dry towel. Do not use benzene or thinner to clean the rice cooker. The layer of starch, which is the residue from rice cooking, may appear on the detachable cover or inside of rice cooker. This layer does not cause any health risk.
- Do not put materials like screws into holes of detachable cover. Check the back cover and front cover.

**Detachable cover & Pressure packing**

After cleaning detachable cover, put it back on the lid

Unless detachable cover is mounted, preset cooking cannot be done. (Alarm may sound while keeping warm.)

1. Turn the holder counter clock wise, and the cover will be easily separated from the cooker and can be washed.
2. Wash the cover with cooking purposed neutral detergent and sponge frequently, and wipe off moisture with handkerchief.
3. Please keep clean the edge of rubber packing, then the rice cooker last’s longer.
4. When mounting the cover, grab separate cover handle, attach it to hole, and after adjusting holder on top of packing stop tab, fix it by turning it clockwise.
5. It is easier to attach the cover holder when the power part of the detachable cover is pressed.

※ As depicted in the picture, please align holder with arrow mark to open and close.

Please fit a rubber packing into the cover plate completely after washing or replacing the rubber packing.

1. To separate the rubber packing, please pull it out from the cover plate as shown in the picture.
2. To put back the rubber packing, please fit it to each of 6 projections and holes as shown in the picture.
3. After fitting 6 projections to the holes, please press the rubber packing around the corner completely as shown in the picture.
4. Please check that the rubber packing fits into the cover plate completely. If not, steam may be released from the crack between the packing and the plate.

**Steam Vent**

Make sure to clean the clean steam went after/before use. Do not try to pull out the clean steam went and safety packing, clean it with care. Make sure the clean steam went and safety packing are installed completely after/before use. If the steam vent is detached, or not attached completely, please contact customer service.

**Inner Pot**

Wipe the water on the outside and bottom of the Inner Pot. A rough sponge, a brush or an abrasive can cause scratches on the coating. Use a dishwashing liquid and a soft cloth or a sponge.

※ Keeping the contact area of the Inner Pot with the pressure packing always clean, increases the product’s durability.

**Pressure Packing**

Wipe the main unit with a wet cloth that has been extracted out of all water.

※ Caution
Do not clean the inner pot with any sharp cutlery inside (fork, spoon, chopsticks, etc.).
- The coating of the inner pot may peel off.

**Inside of the Main body**

Make sure to clean the steam control went before and after use.

**Detachable cover & Pressure packing**

1. Handle must be turned to “LOCK” during Cooking. When the lamp is turned on it means that it is ready to cook.
2. After cooking, turn the handle from “LOCK” to “UNLOCK” turn the handle to open. If there is unreleased steam in the Inner pot it might be hard to turn the handle. In this case twist the pressure weight and let the excess steam out. Do not open by force.
   - Handle must be turned to “UNLOCK” when opening and closing.
   - If the lamp does not turn on, it would not operate the “COOK/TURBO” button. Make sure the handle is located in “LOCK”.

※ Caution
- Do not put materials like screws into holes of detachable cover.
How to clean the pressure weight nozzle.

If the valve of the pressure part is clogged, puncture it with the cleaning pin

- The valve hole of the pressure weight allows steam to release. Check regularly to ensure that it is not blocked. If the valve hole of the pressure weight is blocked, the hot steam and hot content within the cooker can cause serious injury.
- Do not use the cleaning pin for any other use except to clean the valve hole of the pressure weight.

How to disassemble the pressure weight

- Under the Lock/Unlock handle is locked (located on “Lock”) turn the pressure weight counterclockwise while pulling it up, and pull it out.
- Puncture the clogged valve hole with the cleaning pin and reassemble it by turning it clockwise.
- When the pressure weight is properly assembled, it can freely be turned.

How to use cleaning pin and brush kit

1. Separate cleaning pin Attached on the bottom of the unit from main body as shown in picture.
2. Separate cover as the arrow points.
3. Use brush kit. You can easily clean a drain cap and tough pat to clean.
4. When using cleaning pin, pull out cleaning pin and make it meet at right angles.
5. Only use for the valve hole of the pressure weight.

How to clean the soft steam cap

- Do not touch the surface of the soft steam cap right after cooking. You can get burned.

1. Detach the soft steam cap like the picture.
2. Press the hook in the back, and follow the arrow to detach and clean. Make sure you clean frequently with a sponge or a neutral detergent.
3. Assemble the went so that it fits into the groove perfectly.
4. After you attach the soft steam cap to fit into the groove, press “A” part firmly to assemble the soft steam cap into the product.

How to clean dew dish

1. Separate dew dish
2. Separate the drain ditch cap by pushing it down.
3. Clean the drain ditch cap and dew dish with a neutral detergent.
4. Clean the drain ditch cap with brush kit.
5. Securely put in the dew dish after cleaning.

When lid does not close perfectly

Do not try to close the lid by force. It can cause problems.

1. Check to make sure the inner pot is place correctly inside the main body.
2. To close the lid turn the handle to unlock, shown in the picture on the right.
3. If there is excess steam inside the inner pot it might be difficult to lock the handle. Twist the pressure weight and allow the excess steam to release. Then try to turn the handle again.
FUNCTION OPERATING PART / DAYTIME VOICE VOLUME SETTING FUNCTION / NIGHTTIME VOICE VOLUME SETTING FUNCTION

**FUNCTION OPERATING PART**

- **Set Button**
  - Use it when you move to the next mode.
  - Use it when you save the current mode and turn OFF the product.

- **Move Left Button**
- **Previous Button**
  - Use it when you move to the previous mode or the previous screen.
  - And used to button-lock function.

- **Keep Warm/Reheat Button**
  - Use to warm or reheat. (Refer to page 26)

- **Status LED**
  - It displays the current status of the product with the color of LED. (Refer to page 15)

- **Display**

- **Move Right Button**

- **Cancel Button**
  - This function is used to cancel a selection or release remaining steam in the inner pot. (Refer to page 29)

- **Cook/Turbo Button**
  - Use to start cooking.

- **Display**

- **Nighttime voice volume setting function**

The function which can control volume and cancel.

1. Enter 'Setting' in the home screen, select the 'volume setting', and press SET button.
2. Select the 'Daytime Voice Volume' with the touch slider and Press SET button.
3. Set your desired volume with the touch slider.
   ▶ The volume increases/decreases by one step each time you slide it.
4. Press SET button and it will be saved.
   ※ If it's left idle for 15 seconds or so during setting, you will hear voice guidance.
   In another 15 seconds after it's finished, it will be canceled without saving the changed value.

- **Night volume setting function**

Night volume setting function is for the set the voice volume during the night time (10:00 PM ~ 05:59 AM). This function only operates during the night time.

1. Enter 'Setting' in the home screen, select the 'volume setting', and press SET button.
2. Select the 'Nighttime Voice Volume' with the touch slider and Press SET button.
3. Set your desired volume with the touch slider.
   ▶ The night volume is controlled depending on the volume set for the daytime and within the designated time period (10 p.m.-5:59 a.m.).
4. Press SET button and it will be saved.
**POWER SAVING / ENERGY EYE FUNCTION / VOICE SETTING FUNCTION**

**Power save screen light**
If you do not press any button for a certain period of time, this function reduces power consumption by lowering the screen brightness.

1. **If you do not press any button for a certain period of time with the power on, the product will enter the screen saver mode.**
   - It works for all screens.
   - You may turn on/off the mode with the Setting function. (Refer to page 25)

**Power save screen automatic**
If you do not press any button for a long time, this function turns OFF the screen to reduce power consumption.
If you want to manually enter the power-saving mode, select "Power-Saving" in the home screen, and press SET button.

1. **If you do not press any button for a long time while keep warm mode and preset, the germination (Gaba Rice) is under way, the product will enter the screen saver mode automatically.**
   - The color of the current mode is displayed in the Status LED.
     - keep warm mode : KEEP WARM LED
     - Preset / germination Gaba Rice mode : PRESET LED

2. **If you do not press any button for a long time while standby mode or selecting menu is under way, the product will enter the screen saver mode automatically.**
   - The product will enter the power-saving mode after the preset standby time.
   - "Power-Saving LED" will be displayed.

3. **In Cook or Reheat mode, the product will not enter the screen saver mode.**
4. **If you press a button during this mode or turn the Lock/Unlock handle, it will be canceled.**

**STATUS LED Display function**
This function notifies the current status of the product with the lighting positions of the LEDs.

<table>
<thead>
<tr>
<th>Product status</th>
<th>Status LED</th>
</tr>
</thead>
<tbody>
<tr>
<td>Keep Warm</td>
<td>Keep Warm LED</td>
</tr>
<tr>

<td>Preset LED</td>
</tr>
<tr>
<td>Power save</td>
<td>Power save LED</td>
</tr>
<tr>
<td>Cook / Reheating / Auto clean</td>
<td>LED OFF</td>
</tr>
</tbody>
</table>

**Energy Eye function**
The luminance sensor automatically recognizes ambient brightness during standby, cooking, warming and preset timer for minimizing power consumption of the product. If you want the power saving mode to start when it’s darker than the current level (Step 2), set the mode to Step 1. If you want the mode to start when it’s brighter than the current level, set the mode to Step 3.

1. Enter 'Setting' in the home screen, select the 'Energy Eye', and press SET button.
2. Select the step you want using the touch slider. **The default value is 'Step 2.'**
3. Select the step you want using the touch slider.

**Voice setting function**
You can select your preferred option for the screen and voice between Korean and Chinese.

1. Enter 'Setting' in the home screen, select the 'Voice setting', and press SET button.
2. Select the voice you want using the touch slider.
3. Select the step you want using the touch slider.

※ If it’s left idle for 15 seconds or so during setting, you will hear voice guidance.
※ In another 15 seconds after it’s finished, it will be canceled without saving the changed value.
HOW TO SET CURRENT TIME / SIMPLE SOFT FUNCTION

How to set current time

1. Enter 'Setting' in the home screen, select the 'current time setting', and press SET button.
2. You can set the hour with the touch slider and press SET button. After that you can set the minutes.
3. Press SET button after it’s finished to save the current setting.
   ▶ Press BACK button to move from the ‘minute’ to ‘hour’ screen.
   ▶ In case of 12:00 it is 12:00 pm.
   ※ If you keep pressing the button, it will change continuously.
   The hour is changed with the unit of one hour, and the minute is changed with the unit of ten minutes.
   ※ If it’s left idle for 15 seconds or so during setting, you will hear voice guidance.
   In another 15 seconds after it’s finished, it will be canceled without saving the changed value.

About Lithium battery
- This product contains lithium battery for improving blackout compensation and time. Lithium battery lasts for 3 years.
- When current time is not displayed on the screen, it means the battery is exhausted. It should be replaced.

What is blackout compensation
- This product remembers and maintains previous condition and processes. After finishing blackout, it operates immediately.
- If blackout happens during cooking, the cooking time will be delayed depending on blackout time.
- If the rice became cold because of blackout, warming will be cancelled.

SIMPLE SOFT FUNCTION

You can soak grains before starting cooking by setting a desired time with this function.

1. Enter 'Rice' in the home screen, Select your desired menu and Press COOK/TURBO button.
   ▶ CUCKOO started the menu for glutinous rice, mega heat glutious rice, mixed rice, mega great mixed rice, nutritious rice, black bean rice.
2. If you select Add Soaking Time in 5 seconds after starting cooking and then press SET button, it will enter the setting mode for the additional soaking time.
   ▶ You can select among 0, 10, 30 and 60 minutes.
3. Adjust the soaking time with the touch slider.
   ▶ If you press SET button after setting the soaking time, the product will immediately show the cooking status screen.
   ▶ If you press the 'CANCEL' button while setting the time, it will shift into the cooking status screen without saving the set value.
   ▶ If you press the 'CANCEL' button for a second or longer during soaking, it will cancel cooking and return to the home screen.
   ▶ By adding soaking time, the selected value will be added to the default soaking time for each menu.
   ▶ Soaking time is counted by 1 minute unit.
   ▶ The longer the soaking time, the melanoizing effect.
   ▶ If you unlock the Lock/Unlock Handle during the simple Soaking Function, the cooking will be canceled.
BEFORE COOKING RICE / FOR THE BEST TASTE OF RICE

BEFORE COOKING RICE

1. Use a dry cloth to clean inner pot.
   ※ Use a soft scrubber to wash the inner pot.

2. Use measuring cup to measure desirable cooking amount.
   ▶ Make the rice flat to the top of measuring cup and it is serving for 1 person. (ex: for 3 servings → 3 cups, for 6 servings 6 cups)

3. Use another container to wash the rice.

4. Adjust water level.
   ▶ Place inner pot on the flat surface to adjust water level.
   ▶ The marked lines in the inner pot are water level.
   ❶ If you want to cook old or soft rice, pour more water than measured scale.
   ❷ Glutinous rice for 8 people (8 cups) pour water to '8'.
   ❸ Overcooked rice: pour less water than measured scale.

5. Please plug the power cord before inserting inner pot in the rice cooker.
   Put the inner pot correctly.
   ▶ Wipe off or remove any substances on the temperature sensor or bottom of the inner pot.
   ▶ Please place the inner pot correctly into the rice cooker.

6. Plug the power cord and turn the hand to "Lock".

Cautions for Cook

For the best taste of rice, check the following points carefully.

- If possible, buy a small amount of rice and keep the rice some place where it ventilates well and avoids a direct ray of light. It can prevent evaporation of rice moisture.
- If the rice has been unsealed for long, rice can be dry and stale. In this case, you should pour the half of water more. It's tastier.
- If possible, do not use the preset time function when rice is too dry and pour the half of water more. If you cook over the 10 hours or dried rice, rice can be crisp or half cooked. Even worse condition, rice can be cooked different tastes each level.

Cautions for Keeping Warm

- It will be hard to open the lid during warming, or right after it has finished cooking. So push the pressure weight to the side and allow the steam to release. Make sure the handle is in the "Lock" position during warming or reheating.
- It would be better to warm the rice for less than 12 hours because of odors and color change. The cooked rice, which cooked by pressure cooker, is more prone to changing color than the rice cooked by general cooker. After 24 hours of heat preservation, the lamp of heat preservation time lapse blinks, indicating that long time has passed in heat preservation condition.
- If you have cooked rice with a separate electric heating appliance or fire with gas, put the cooked rice in the pot and start Keep Warm mode according to the warming instruction.
- It is recommended to evenly stir the cooked rice after cooking. The rice taste is improved. (For a small quantity of rice, pile up the rice on the center area of the inner pot to keep warm)
- The mixed and brown rice cannot be in such good condition as white rice while in warm function due to their characteristics.
- During warm mode, the rice can rise and turn white. In this case, mix the rice.
- It is recommended to evenly stir the cooked rice after cooking. The rice taste is improved. (For a small quantity of rice, pile up the rice on the center area of the inner pot to keep warm).

When Odors are Rising During the Warming Mode

- Clean the lid frequently. It can cause growth of bacteria and odors.
- Even though exterior looks clean, there might be germs and it can cause odor so please be sure to use automatic sterilization (steam cleaning) menu for cleaning. Clean the inner pot completely after automatic cleaning function is done. (Refer to page 18)
- Clean the inner pot properly to prevent rice from smelling after you cook soups and steamed dishes.
HOW TO COOK

1 Press SET button in the home screen (Rice) and the 'Rice Menu' will appear.
   • Check if the removable cover is installed.
   • Before cooking, check that the Pressure weight well placed horizontally.

2 Press the 'COOK/TURBO' button after selecting your desired Rice menu, and the product will start cooking.
   • You must turn lid handle to lock before cooking. Then press the pressure Cook/Turbo button.
   • Unless lid handle is not turned to close, you get alarm with “E01”, and sound “turn lid handle to lock”
   • If you select Turbo within 5 seconds in Glutinous or Mixed Rice mode and then press the 'COOK/TURBO' button or SET button, it will shift into the Turbo Glutinous or Turbo Mixed mode and will start cooking again.
   • During cooking, the expected time will be displayed on the screen.
   • The actual cooking time may vary depending on the cooking capacity, water temperature, and cooking conditions.

3 Cooking thoroughly.
   • The cooktime remaining on the display is shown from cooking thoroughly. The cook time is different according to the menu.
   • Be careful not to burn yourself from the automatic steam outlet.

4 The end of cooking.
   • When cooking is completed, warming will start.
   • The status LED will get turned ON.
   • If you don’t want to keep the cooked rice warm, press Cancel for 1 seconds.
   • If you don’t stir rice at once and keep it stagnant, rice will go bad and smell bad.
   • If the lid handle is not working well, take out the steam completely out of inner pot by turning over pressure weight.
   • Do not press ‘Cancel’ button during cooking.

How to use AUTO CLEAN (Steam Cleaning)

- Pour water up to scale 2, make sure to close and lock the cover.
- If you press the ‘COOK/TURBO’ Button after selecting the Automatic Sterilization mode, it starts cleaning immediately.
- If you Press SET button after selecting the Automatic Sterilization mode, you will hear the voice guidance and then press SET or COOK/TURBO button to start automatic cleaning.
- If you press the ‘CANCEL’ button in cleaning mode for about 1 second, the mode will be canceled and it will return to the home screen.

Melanoizing effect

The cooked rice can be light yellow at the bottom of the oven, because this product is designed to improve pleasant flavor and taste. Especially, melanoizing is more serious at the Preset cooking than just Cooking. It does not mean malfunction.

※ When mixing other rice with Glutinous, Melanoizing effect could increase more than Glutinous cook setting.

※ After cooking in white rice turbo mode or cooking of small serving, discard water. In case of small servings white rice turbo cooking, more water may be required than other menu.

- **When keeping warm, press Cancel to stop and select the desired function.**
- **When you cook after using options like Multi Cook, Home bakery, Chicken soup and baby food the odor may stick.** (refer to the product care method section to wipe the packing and cover and clean with the auto sterilization function).
- **Cooking time for each option may vary depending on user's environment such as voltage, amount/temperature of water, etc.**
- **When you see “Edo” on display, turn the Lock/Unlock handle towards “ ” (Unlock), and then turn it back towards “ ” (Lock) for it to work properly. (This does not apply when you turned the handle towards “ ” (Unlock) once or more after finishing cooking in the previous cooking.)**
MY MODE (CUCKOO Customized taste function) / MY MODE (CUCKOO Customized cooking function)

What is "MY MODE"?

CUCKOO’s patented technology based on variable circuit design. User can select the degree of "softness" and "glutinosity & tastiness" to meet a user’s desire.

MY MODE Function

Longer "SOFT" Time : rice becomes soft and glutinous. (selectable in 4 steps)
Longer "SWEET" Time : rice becomes tastier (selectable in 4 steps) [melanoizing will occur]
※ Both functions above can be selected simultaneously or separately

How to Use "MY MODE"

1. Enter 'Setting' in the home screen, select 'Cook Setting' and then select 'My Mode.'
   ※ 'CUCKOO Customized taste function' applies to GLUTIN. RICE, HIGH HEAT GLUTIN. RICE, MIXED RICE, HIGH HEAT MIXED RICE, BROWN RICE, HIGH HEAT BROWN RICE, GABA RICE, BLACK BEAN RICE collectively.

2. Select your desired menu and Press SET button.

3. You may select your preferred level for each 'Soft' and 'Rich' taste with the touch slider.
   - The level increases/decreases by one step each time you slide it.
   - The higher the level, the softer and richer the taste gets.
   - You may select your preferred level for the 'Soft' taste with the touch slider and then press SET button to select the level for the 'Rich' taste.

4. Press SET button after it’s finished to save the current setting.
   ※ When setting your preferred taste, the cooking time may get longer depending on the selected time.

5. Disabling Customized Taste mode
   Selecting the level 1 (default value) would disable My Mode
   ※ In another 15 seconds after it's finished, it will be canceled without saving the changed value.

Cuckoo customized cooking function

While cooking, you can control the heating temperature (both high and low) depending on your preference.

1. Enter 'Setting' in the home screen, select 'customized cooking' and then select 'My Mode.'

2. Select your desired menu and Press SET button.

3. Select the step you want using the touch slider.
   ▶ The level increases/decreases by one step each time you slide it.
   ◀ : melanoising prevention
   ◀ : be half-cooked prevention

4. Press SET button after it’s finished to save the current setting.
   ※ In another 15 seconds after it's finished, it will be canceled without saving the changed value.

1. 'CUCKOO customized cooking function' applies to GLUTIN. RICE, HIGH HEAT GLUTIN. RICE, MIXED RICE, HIGH HEAT MIXED RICE, BROWN RICE, HIGH HEAT BROWN RICE, GABA RICE, BLACK BEAN RICE collectively.
2. Set up the step of customized cooking function to taste. The scorch can occur when cooking in high level mode.
3. Cook is subject to be set differently depending on the percentage of water content and the condition of rice.
HOW TO USE GABA RICE/MULTI-COOK FUNCTION

Using "GABA" Menu

1. Enter 'Rice' menu in the home screen, select the 'Gaba Rice' and press the 'COOK/TURBO' button.
   ▶ If you press the 'COOK/TURBO' button, it will start cooking immediately for the displayed germination time.
   ▶ Press SET button and then you can view the recipe.
   ▶ Press the 'COOK/TURBO' or SET button in View Recipe mode and it will start cooking.
   ▶ When starting cooking, the remaining time will be displayed with the unit of minutes.

When the "GABA" is selected, "3H" is indicated in the display

1. If you don't want to grow the size of the sprout germinated and want to eat earlier, select the Gaba Rice while skipping the pre-germination phase, and then press the 'COOK/TURBO' button. (nutrients ingredients do not vary significantly by the size of germ).
2. During hot seasons, longer germination time may generate odor. Reduce germination time.
3. GABA cooking feeds up to 6 people.
4. City water can be used for germination. However, filtered or drinkable water is recommended. Germination may not be properly performed in hot or boiled water even after cooking.
5. Germination rate and germ growth may differ by the type of brown rice, condition, or period of storing.
   - The brown rice should be within 1 year from harvest, and not long since pounded.
6. In GABA mode, preset on 3H may not be possible. If you want to preset the GABA, set up BROWN RICE menu.
7. The taste of rice could be different depending on a kind of brown rice. Use customized taste function or control the amount of water for your taste. (Refer to Page 20)
8. Depending on the user's environment or the condition of the rice, the sprout may not be visible.

Multi-Cook Function

1. Enter 'dishes' menu in the home screen, select the 'MY multi-cook' and press the 'COOK/TURBO' button.
2. Set your desired cooking time with the touch slider.
   ▶ Each time you press the right arrow ( ), the steaming time will increase by one step.
   ▶ Each time you press the left arrow ( ), the steaming time will decrease by one step. (If you keep pressing the button, it will change continuously.)
   ▶ You can set the time for Multi Cook from 10 minutes to 120 minutes.
   ▶ You can set the time from 10 minutes to 90 minutes with the unit of five minutes, and can set the time from 90 minutes to 120 minutes with the unit of 10 minutes.
   ▶ If you press the 'CANCEL' button, it will return to the home screen without saving the time.
3. Press SET and then 'COOK/TURBO' button to start cooking.
   ▶ In Multi Cook mode, the remaining time will be displayed.
   ▶ If you Press SET button after selecting the cooking time, the value will be saved and you can view the recipe.
   ▶ Press the 'COOK/TURBO' or SET button in View Recipe mode and it will start cooking.
My Recipe Function

This function allows you to add your favorite menu for which you could jump start cooking.

How to Use "My Recipe"

1. Select 'My Recipe' in the home screen, and press SET button.
2. You can select the menu added to My Recipe when you enter the mode. If you press SET button, the product will shift into the View Recipe mode, and then press the 'COOK/TURBO' button to start cooking.
   - Menu: Rice, My multi-cook, Rice dishes, Porridges, Noodles, Steamed dishes, Home bakery, Stews, Baby food
   - For Multi Cook menu: Press SET button and you can change the cooking time.
   - For others: Press SET button and you can view more items.
3. You can add up to 8 items to My Recipe.
   - You may delete the default Glutinous/Mixed/Brown rice options.
   - For any unsaved menu, the blank will be displayed as 'Add menu.'

Adding menu to My Recipe

1. Select My Recipe in the home screen and then press SET button.
2. Select the menu you want to add to My Recipe, and press SET button.
   - Menu: Rice, My multi-cook, Rice dishes, Porridges, Noodles, Steamed dishes, Home bakery, Stews, Baby food
   - For Multi Cook menu: Press SET button and you can change the cooking time.
   - For others: Press SET button and you can view more items.
   ※ You can add up to 8 items for My Recipe. In this case if you want to add another menu, please delete one first before adding it.
   ※ In case it's overlapped, the current menu will replace the previous one.
3. Press SET button during cooking and you can add the menu to My Recipe
   ※ If you add a menu when your My Recipe list is full, it will replace automatically the one with low priority.

Delete a menu to My Recipe

1. Select My Recipe in the home screen and then press SET button.
2. Select the menu you want to delete from My Recipe and press SET button.

Recent Cook Function

1. Press the 'COOK/TURBO' button in the home screen (Rice) to view the meals that are cooked recently.
   - Three recent items will be displayed with the most recent one being displayed on the top.
   - If there is no menu cooked, the 'Glutinous rice' option will be displayed.
   - Saving new options will automatically delete the ones at the bottom.
2. Select the menu you want using the touch slider.
   - Press SET button after selecting the menu and then you can view the recipe.
   - Press the 'COOK/TURBO' or SET button in View Recipe mode and it will start cooking.
3. Press SET and then 'COOK/TURBO' button to start cooking.
**HOW TO USE HOME BAKERY**

### Using Fermentation

1. Enter ‘Cook’ in the home screen, select ‘Home bakery’ and then select ‘Bread Fermentation.’

2. Select the Fermentation time you want using the touch slider.
   - Each time you press the right arrow (→), the Fermentation time will increase by one step.
   - Each time you press the left arrow (←), the Fermentation time will decrease by one step. (If you keep pressing the button, it will change continuously.)
   - You can set the time for Fermentation from 5 minutes to 120 minutes.
   - You can set the time from 5 minutes to 90 minutes with the unit of five minutes, and can set the time from 90 minutes to 120 minutes with the unit of ten minutes.

3. Press SET and then ‘COOK/TURBO’ button to start cooking.
   - If you Press SET button after selecting the Fermentation time, the value will be saved and you can view the recipe.

4. When first fermentation is completed, press softly dough for remove gas and repeat process 2-3 for second fermentation.
   - After the primary fermentation is done, select ‘Cook,’ ‘Home bakery,’ and ‘Bread Fermentation’ in order and Press SET button. Then, a pop up saying “Move to the next phase.” will show and the product shifts into the fermentation time setting mode.
   - After second fermentation, open the lid and make sure dough size is 1.5 to 2 times.
   - After the secondary fermentation is done, you will hear the voice saying “Check the progress of fermentation first and then perform additional fermentation or select the baking mode.”

### Using Bread Baking

1. Enter ‘Cook’ in the home screen, select ‘Home bakery’ and then select ‘bread Baking.’

2. Select the Baking time you want using the touch slider.
   - Each time you press the right arrow (→), the Fermentation time will increase by one step.
   - Each time you press the left arrow (←), the Fermentation time will decrease by one step. (If you keep pressing the button, it will change continuously.)
   - You can set the time for Baking from 1 minutes to 80 minutes.
   - You can set the time from 1 minutes to 20 minutes with the unit of one minutes, and can set the time from 20 minutes to 80 minutes with the unit of five minutes.
   - If you Press SET button during baking, it will be saved in My Recipe.
   - Once the baking begins, the cooking icon will be displayed along with the remaining time.

3. Press SET and then ‘COOK/TURBO’ button to start cooking.
   - If you Press SET button after selecting the Baking time, the value will be saved and you can view the recipe.
   - Press the ‘COOK/TURBO’ or SET button in View Recipe mode and it will start cooking.

   * When the “Bread Baking” process is complete. Immediately remove the bread from inner pot.
   * After the “Bread Baking” is complete, the bread is hot and you should be careful.

HOW TO USE PRESET COOKING / POWER-SAVING STANDBY FUNCTION

How to preset timer for cooking

1. Check if the current time and the menu are correct.
2. Enter 'Preset' in the home screen, select the Preset menu, and press SET button.
   ▶ You can preset cooking only for the rice menu
   (Turbo Glutinous, Turbo Mixed and Gaba rice NOT included).
3. Select the Baking time you want using the touch slider.
   ▶ You can set the hour first with the touch slider and press SET button. After that you can set the minutes.
   ▶ Press BACK button to move from the 'minute' to 'hour' screen.
   ▶ The hour is changed with the unit of one hour, and the minute is changed with the unit of ten minutes.
   ▶ Please be careful not to change from AM to PM.
4. Press SET or 'COOK/TURBO' button to start cooking.
   ※ The preset cooking time is set for the maximum portion for each menu.
   Therefore, the smaller the quantities of ingredients, the earlier the cooking may be completed than the preset time.

Precautions for Preset Cooking

1. In case of preset cooking
   ▶ If the rice is old and dry, the result may not be good
   ▶ If the rice is not well cooked, add more water by about half-scale.
   ▶ If the preset time is longer, melanization could be increased.

Power-Saving Standby mode

If the selected time has passed in the Standby status, it will automatically enter the power saving mode.

1. Enter 'Setting' in the home screen, select 'Screen Setting' and then select 'Power-Saving Standby'.
2. Select the Power-Saving Standby time you want using the touch slider.
   ▶ "1 minute(default)", "3 minute", "5 minute"
3. Press SET button and it will be saved.
   ▶ If it's left idle for 15 seconds or so during setting, you will hear voice guidance. In another 15 seconds after it's finished, it will be canceled without saving the changed value.
   ※ Disabling power saving mode
   1. If you press every button, the mode will be canceled and the product will return to the home screen.
   2. If you turn the handle, the power saving mode will be canceled and the product will return to the home screen.
   3. If the power is supplied again after blackout, it will return to the home screen.
   4. If the power cable is plugged out and then plugged in again in the power-saving mode, the mode will be canceled and the product will return to the Home Screen.
HOW TO USE POWER SAVE SCREEN LIGHT MODE / PRESET REHEATING FUNCTION

Power Save Screen Light Mode
In Standby, Cooking, Keep Warm and Preset cooking mode, this function reduces power consumption by lowering the brightness of the screen after a certain amount of time has passed.

1. Enter 'Setting' in the home screen, select 'Screen Setting' and then select 'Screen saver Power-Saving Standby.'
2. Select 'Enable' or 'Disable' with the touch slider.
   ▶ The default value is 'Enable'.
3. Press SET button and it will be saved.
   ▶ If you press the 'CANCEL' button during setting, it will return to the home screen without saving the changed value.
   ▶ If it's left idle for 15 seconds or so during setting, you will hear voice guidance. In another 15 seconds after it's finished, it will be canceled without saving the changed value.
   ▶ It lowers the total brightness of the LCD to 50%.
   ▶ Screen Saver On: If it's left idle for a certain amount of time, the screen will be darker.

How to use Preset Reheating function

Use this function when the cooked rice is not kept warm in the rice cooker but you still want to enjoy a hot meal at your convenience.
It takes 50 minutes before it's fully warmed up: Please use the function at least 50 minutes before you enjoy your meal.

1. Check if the current time and the menu are correct.
2. Enter 'Preset' in the home screen, select the Preset Reheating menu, and press SET button.
3. Press the touch slider to preset the completion time of reheating.
   ▶ You can set the hour first with the touch slider and press SET button. After that you can set the minutes.
   ▶ Press BACK button to move from the 'minute' to 'hour' screen.
   ▶ The hour is changed with the unit of one hour, and the minute is changed with the unit of ten minutes.
   ▶ Please be careful no to change from AM to PM.
4. Press SET or 'COOK/TURBO' button to start cooking.
   ▶ The preset time will be saved whether the preset reheat process is completed or canceled in the middle. (However, if it exceeds 13 hours, the previously memorized time will be maintained.)
   ▶ When the preset reheat process is completed, the product will enter the Keep Warm mode.

Precautions for preset reheating

1. In case of preset reheating.
   ▶ When leaving cooked rice at ambient temperature for a prolonged period of time, moisture is evaporated from cooked rice. In such a case, the reheating preset may cause dehumidifying or melanosis (slightly burnt) of cooked rice.
   ▶ If there is an excessive amount of cooked rice in the pot, it may not sufficiently be reheated.
   ▶ It is recommended to set reheating for no more than 5 people. (approx. half of the inner pot)
   ▶ Reheating of cold- or frozen-stored cooked rice may cause insufficient heating, dehumidifying or melanosis (slightly burnt) after completion of reheating.
   ▶ Reheating of frozen-stored cooked rice shall be performed only after thawing the rice.
2. Changing preset time.
   ▶ Press 'CANCEL' button for more than 2 seconds and restart it to change the preset time.
3. If the preset time is shorter than available range.
   ▶ If the preset time is shorter than the available range (50 minutes), reheating will begin immediately.
4. In case the preset time is over 13 hours.
   ▶ ‘13Ho’ will be displayed and the preset time will be changed to 13 hours automatically. If cooking is preset to AM07:00 of the following day at PM5:00 of the day, where preset time is 14 hours, ‘13Ho’ will be displayed, and preset time
TO KEEP COOKED RICE WARM AND TASTY

How to Keep Warm

1. Press the Keep Warm/Reheat button or select the 'Keep Warm/Reheat' mode from the home screen. After that press SET or the 'COOK/TURBO' button.
2. In this mode, the screen will display 'Keep Warm'.
   ▶ The warming time is displayed with the unit of one minute.
   ※ If the power is supplied again after blackout, it will start from Keep Warm mode again. But, when the rice is cooled down, the mode will be canceled and the product will return to the home screen.

How to Reheating

▶ If you want to have warm rice, press the “REHEAT/KEEP WARM” button.
▶ Reheating will be done for nine minutes, and then the Keep Warm mode begins again.
▶ The frequent use of the “Reheat” function may cause the cooked rice to be discolored or dried. Use it once or twice per day.
1. Press the 'COOK/TURBO', SET or the 'Keep Warm/Reheat' button during Keep Warm, and it will start reheating.
2. If you Press, however, SET or the 'Keep Warm/Reheat' button again in the middle, Reheating will be canceled and the product will return to the Keep Warm mode.
   ▶ If the lid combining hand grip is turned to open status during reheating, function display will show “E01”. At this time, reheating will be cancelled, and heat preservation will proceed.

Keep Warm Temperature Setting Function

If the temperature in the rice cooker is not set properly, an odor or the color of the rice may change even though it is cleaned frequently and boiled up. Temperature needs to be set.
1. Enter 'Setting' in the home screen, select 'Keep Warm Setting' and then select 'Keep Warm Temperature'.
2. Select the temperature you want using the touch slider.
   ▶ The default value is '74℃'
   ▶ Each time you press the right arrow ( ), the warming temperature will increase by one degree.
   ▶ Each time you press the left arrow ( ), the warming temperature will decrease by one degree.
   ※ The reference temperature programmed when the product is shipped may differ from the Instruction.
3. Press SET button and it will be saved.

Device Temperature Control

When you smell bad odors and the rice is too watery : The keep warm temperature is too low. In this case, increase the “Keep Warm” temperature by 1-2.
2. When the rice has a yellowish color or is too dry : The Keep Warm temp is too high. In this case decrease the “Keep Warm” temperature by 1-2.

Customized Taste keep warm setting function

Use it while opening the lid when there is too much water or rice becomes too soft.
1. Enter 'Setting' in the home screen, select 'Keep Warm Setting' and then select 'Customized Taste keep warm'.
2. Select the temperature you want using the touch slider.
   ▶ Each time you press the right arrow ( ), the controlling temperature for top heater will increase by one degree, and you can set values from Step -2 to Step 2. (Use it when the water flows excessively when you open the lid.)
   ▶ Each time you press the right arrow ( ), the controlling temperature for top heater will increase by one degree, and you can set values from Step -2 to Step 2. (Use it when you find that the rice is partially over cooked on the side.)
3. Press SET button and it will be saved.

How to setting "Sleeping" function

When keeping rice warm for a long time, set up the temperature low to prevent the following quality of rice: smelly, dry, change of color; from PM10:00 ~ AM 04:00.
1. Enter 'Setting' in the home screen, select 'Keep Warm Setting' and then select 'Sleeping keep warm'.
2. The default value is 'Disable'
3. Press SET button and it will be saved.
   ※ If it enters the Keep Warm mode while you are sleeping, however, this function will be not applied. function will be not applied.
   ※ If you need to keep the rice warm during sleeping, do not use this function. This function makes the rice cooler than normal. In summer, the rice can be spoiled and may smell bad because of high temperature. If possible, do not use the “Custom-made warming” mode while sleeping.
REMAINING COOKING TIME DISPLAY / LOCK BUTTONS / PRODUCT INITIALIZATION / HELP FUNCTION

REMAINING COOKING TIME DISPLAY FUNCTION

Enter 'Setting' in the home screen, select 'Screen Setting' and then select 'Remaining cooking time display.'

1. Enter 'Setting' in the home screen, select 'Screen Setting' and then select 'Remaining cooking time display.'
2. Select whether to display remaining time with the touch slider.
   - The default value is 'Disable'
3. Press SET button and it will be saved.
   - If it's left idle for 15 seconds or so during setting, you will hear voice guidance. In another 15 seconds after it's finished, it will be canceled without saving the changed value.

How to Set "LOCK BUTTONS"

Lock can be set for touch button to prevent accidental touch during cleaning or by children.

Setting Method
1. If you press the 'BACK' button for three seconds or longer in Standby, Cooking, Presetting, and Keep Warm/Reheat mode, it will enter the Button Lock mode.
2. You will hear the voice guidance that says "Button Lock Activated." Here, a lock icon will be displayed as “ ” on the top of the screen.

How to set and unset the mode
1. If you press the 'BACK' button for three seconds or longer in Standby, Cooking, Presetting, and Keep Warm/Reheat mode, it will enter the Button unLock mode.
2. You will hear the voice guidance that says "Button unLock Activated." Here, a lock icon will be displayed as “ ” on the top of the screen.

※ If you press any other button than the 'Back' button while the button lock is selected, a buzzer sound will be made, and the screen notifying that it is in the locked status will be displayed.
※ You may unlock the buttons by pressing the 'BACK' button for three seconds or longer.
※ If you pull out and put in the Power Plug again after setting the button lock, the Button Lock Function will be canceled.

How to use "Product initialization"

Use it to set the default value of multiple customization functions and user option functions.

Setting Method
1. Enter 'Setting' in the home screen and select Product initialization, and Press SET button.
2. Select 'Yes' when it says "the product will be reset to its factory default settings. Will you continue?", and press SET button.
3. If you initialize the product, the current time will also be initialized. Therefore, set the current time before using the product. (Refer to Page 16)

Help function

Enter 'Help' in the home screen and select your desired category, and Press SET button.
You may refer to the information listed in the selected category.

</tr>
</tbody>
</table>

### INGREDIENTS

- Chicken (1 kg)
- Tomato (100g)
- Corn (100g)
- Olive oil (20g)
- Ground black pepper (1/2 teaspoon)
- Green onion (2 tablespoons)
- Garlic (1/2 tablespoon)
- Sesame oil (3 tablespoons)
- Green onion (1 tablespoon)
- Sesame oil (1 tablespoon)
- Ground black pepper (1/2 teaspoon)
- Sesame oil (1 teaspoon)
- Green onion (1 tablespoon)
- Sesame oil (1 teaspoon)
- Ground black pepper (1/2 teaspoon)

### DIRECTIONS

1. Put clean-washed rice in the inner pot and pour water up to the Line 4 for Glutinous Rice.
2. Close the lid, select the 'Rice cooking' menu in 'Cooking' from the display panel, and press the 'Cook/Turbo' button.

| RECIPE |

*Seasoning sauces : soy sauce 4 tablespoons, chopped scallion 2 tablespoons, crushed garlic 1/2 tablespoon, red pepper powder 1/2 teaspoon, ground sesame mixed with salt 2 teaspoons, sesame oil 1 teaspoon

1. Put clean-washed rice in the inner pot and pour water up to the Line 2 for Gaba Rice.
2. Close the lid, select the 'Rice cooking' menu in 'Cooking' from the display panel, and press the 'Cook/Turbo' button.

*Seasoning sauces : soy sauce 4 tablespoons, chopped scallion 2 tablespoons, crushed garlic 1/2 tablespoon, red pepper powder 1/2 teaspoon, ground sesame mixed with salt 2 teaspoons, sesame oil 1 teaspoon

1. Put the prepared ingredients in the inner pot and pour water up to the appropriate water level depending on the quantity of food to be served.
2. Close the lid, select the 'Rice cooking' menu in 'Cooking' from the display panel, and press the 'Cook/Turbo' button.

1. Pour 2 cups of water in the inner pot and place the steam plate. Put the prepared ingredients on top of the plate.
2. Close the lid, select the 'STEAMED cooking' menu in 'Cooking' from the display panel, and press the 'Cook/Turbo' button.
