Thank you very much for purchasing “CUCKOO” IH PRESSURE JAR COOKER

Read the following instruction manual before use. Save this instruction manual for future reference. This manual will be useful if you have any questions or have problems operating the rice cooker.

CUCKOO ELECTRONICS CO., LTD.
1. Read all instructions before using this appliance.
2. Do not touch hot surfaces. Use handles or knobs.
3. To protect against fire, electric shock and/or injury to persons do not immerse cord, plugs, or Pressure Cooker Body in water or any other liquid.
4. Close supervision is necessary when this appliance is used by or near children. This appliance is not intended for use by young children without supervision.
5. Unplug cord from outlet when not in use and before cleaning.
   Allow appliance to cool before putting on or taking off parts, and before cleaning the appliance.
6. Do not operate any appliance with a damaged cord or plug, after the appliance malfunctions, or has been damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair or adjustment.
7. The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, and/or injury to persons.
8. If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or your service agent.
9. Do not use outdoors.
10. Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.
11. Do not place on or near a hot gas, electric burner, or in a heated oven.
12. Always attach the plug to the appliance first, then plug the cord into the wall outlet. To disconnect, or set all control to “off”, then remove the plug from the wall outlet.
13. Do not use this appliance for other than its intended use.
14. Extreme caution must be used when moving an appliance containing hot oil or any hot liquids.
15. Oversized foods, metal foil packages, or utensils must not be inserted into the appliance as they are a risk of fire or electric shock.
16. Fire may occur if the appliance is covered or touching flammable material, including curtains, draperies, walls, etc while in operation.
17. To reduce the risk of electric shock, cook only in the provided removable container.
18. This appliance cooks under pressure. Improper use may result in scalding injury.
   Before operating the unit, properly secure and close the unit. See “Operating Instructions.”
19. Do not cook foods such as applesauce, cranberries, cereals, macaroni, spaghetti, or other foods.
   These foods tend to foam, froth, and sputter, and may block the pressure releasing device.
20. Before use always check the pressure releasing device for clogging.
21. Do not open the pressure cooker until the unit has cooled and internal pressure has been reduced.
   See “Operating Instructions.”
22. Do not use this pressure cooker to fry in oil.
23. the ducts in the pressure regulator allowing the escape of steam should be checked regularly to ensure that they are not blocked.
24. Appliances can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance.
25. This appliance shall not be used by children. Keep the appliance and its cord out of reach of children.

SAVE THESE INSTRUCTIONS
THIS APPLIANCE IS FOR HOUSEHOLD USE ONLY

ADDITIONAL IMPORTANT SAFEGUARDS

WARNING: This appliance generates heat and releases steam during use. Use proper precaution to prevent risk of burns, fires, other injuries, or damage to property.
1. Keep hands and face away from the Pressure Release Valve when releasing pressure.
2. Take extreme caution when opening the Lid after cooking. Severe burns can result from steam inside.
3. Never open the Lid while the unit is in operation.
4. Do not use without the inner Pot in place.
5. Do not cover the Pressure Valve with anything as an explosion may occur.
6. Do not touch the inner pot nor any heating parts, immediately after use.
   Allow the unit to cool down completely first.

This appliance is intended to be used in household and similar applications such as:
- staff kitchen areas in shops, offices and other working environments;
- farm houses;
- by clients in hotels, motels and other residential type environments;
- bed and breakfast type environments.
**HOW TO USE EXTENSION CORD**

**Note:**
A. A short power-supply cord (or cord set) is provided to reduce the hazards from entanglement by a longer cord.
B. Extension cord should be used properly.
C. Extension cord usage for the rice cooker:
   1. The correct rated voltage should be used for the rice cooker.
   2. If the appliance is set on the ground, the extension cord should also be set on the ground.
   3. The cord wires and extension cord should always be arranged to prevent hazards to children.

This appliance has a polarized plug: (one blade is wider than the other).
As a safety feature, this plug will fit in a polarized outlet only one way.
If the plug does not properly fit in the outlet, turn the plug over.
If it still does not fit, contact a qualified electrician.
Please, keep this safety feature.

SAFETY PRECAUTIONS

- Read the following product safety guide carefully to prevent any accidents and/or serious danger.
- ‘Warning’ and ‘Caution’ are different as follows.

**Warning**
This means that the action it describes may result in death or severe injury.

**Caution**
This means that the action it describes may result in injury or property damage.

**Warning**
Do not cover the automatic steam outlet or pressure weight with your hand or face.
- It can cause burns.
- Especially be careful to keep it out of children’s reach.

Do not use the cooker near hot things such as stove, gas stove or direct ray of light.
- It can cause an electric shock, fire, deformation, malfunction, or discoloration. Please check the power cord and plug frequently.

Do not alter, reassemble, disassemble or repair.
- It can cause fire, electric shock or injury.
- For repair, contact dealer or the service center.

Use a single socket with the rated current above 15A.
- Using several lines in one socket can cause overheating or fire. Please check the power cord and plug frequently.
- Use an extension cord with the rated current above 15A.

Please pay careful attention against water and chemicals.
- It can cause an electric shock or fire.

Do not use a rice cooker at a place where dust is trapped or chemical material is located.
- Do not use any combustible gas or flammable materials nearby a product.
- It can cause explosion or fire.

Do not use damaged power cord, plug, or loose socket.
- Please check the power cord frequently for damage.
- Serious damage can cause electric shock or fire.
- If the plug is damaged, contact the dealer or a service center.

Do not clean the product with water or pour water in the product.
- It can cause an electric shock or fire.
- If it contacts water, please separate power cord and contact dealer and service center.

Do not cover the automatic steam outlet or pressure weight with a duster, a towel, or apron, etc.
- It can cause deformation or a breakdown.
- It can cause an explosion by pressure.

Do not use pots that are not designed for the cooker.
Do not use abnormal pot and do not use without the inner pot.
- It can cause an electric shock or fire.

Do not bend, tie, or pull the power cord by force.
- It can cause an electric shock or short circuit resulting in fire.
- Please check the power cord and plug frequently.

**Do not**

**Do not use it without the inner pot.**
- It can cause electric shock or malfunction.
- Do not pour rice or water without the inner pot.
- If rice or water gets in then do not turn the product over or shake it, please contact the dealer or service center.

**Do not turn the Lock/Unlock Handle to “Unlock” while cooking.**
- The hot steam or any hot content within the cooker can cause burns.
- After you finish the cooking do not try to open the cooker by force until the steam is completely exhausted.

**Do not over unplug and plug the power cord over and over.**
- It can cause an electric shock or fire.

**Do not insert metal objects such as pins and wires or any other external substances in the automatic steam exhaust outlet or any other slot.**
- It can cause an electric shock or fire.
- Especially be careful to keep it out of reach of children.

**Keep the cooker out of reach of children.**
- It can cause burns, electric shock or injury.

**Don’t spray or put any insecticides or chemicals.**
- It can cause an electric shock or fire.
- If cockroaches or any insects get inside the cooker, please call a dealer or a service center.

**Don’t let foreign substances such as needle, cleaning pin, or metal get in or block the inlet/outlet pipe or gape.**
- It can cause an electric shock or fire.
- Do not put a cleaning pin in a gap or a hole of the product except when dearing a steam outlet.

**Do not open the LID while in heating and cooking.**
- It can cause burns.
- If you need to open the lid while cooking, keep pressing the cancel button for 2 seconds and confirm internal steam released completely turning the pressure weight over.

**Remove a foreign substance on the cord and plug with a clean cloth.**
- It can cause fire. Please check the power cord and plug frequently.

**Be careful that both the plug and power cord are not to be shocked by animal attack or sharp metal materials.**
- Damages by impact can cause an electric shock or fire.
- Please check the power cord and plug frequently.

**SAFETY PRECAUTIONS**
Pressure Weight
Always keep it horizontal. It stabilizes steam inside of the oven. Pressure weight is twisted, it release steam.

Automatic Steam Exhaust Outlet (Solenoid valve)
When finished cooking or during warming, steam is automatically released.

Lock/Unlock Handle
(Set the handle to lock when cooking or warming the rice)
The handle has to turn to “Lock” for operation.

Lid Clamp
Turn handle to ‘Unlock’, and then press Clamp knob to open.

Control Panel
Standby Power Blocking Switch
When the power is not supplied after the power cable is connected, check if the switch is "ON".

-Enabled: "ON" - Disabled: "OFF"
(The standby power is blocked, saving the energy)
※ In case of a blackout during cooking, steam from a rice cooker will be released automatically.

Accessories
Manual & Cooking Guide
Rice Scoop
Rice Measuring Cup
Steam Plate
Cleaning Pin
(Attached on the bottom of the unit)
- To prevent foul odor clean the lid assy after the rice cooker has cooled and the rice cooker is unplugged.
- Clean the body of rice cooker and the cover with a dry towel. Do not use benzene or thinner to clean the rice cooker. The layer of starch, which is the residue from rice cooking, may appear on the detachable cover or inside of rice cooker. This layer does not cause any health risk.
- Do not put materials like screws into holes of detachable cover. Check the back cover and front cover.

**Detachable cover & Pressure packing**

After cleaning detachable cover, put it back on the lid.

Unless detachable cover is mounted, preset cooking cannot be done. (Alarm may sound while keeping warm.)

1. Hold the handle of the Detachable Cover, press the center of the button, and pull the handle in the direction of the arrow, and it can be easily separated from the product to be cleaned.
   * When you separate or mount the Detachable Cover, it could easily drop, so be sure to hold the handle.
   * If you don’t press the center of the button, the operation may not be carried out, so be sure to press the center of the button.

2. Wash the cover with cooking purpose neutral detergent and sponge frequently, and wipe off moisture with handkerchief.
   * Please keep clean the edge of rubber packing, then the rice cooker last’s longer.

3. When you mount the Detachable Cover, hold the handle of the Detachable Cover, attach it to the Cover, and push the bottom end unit of the Detachable Cover until you hear a clicking sound.

4. Please check that the rubber packing fits into the cover plate completely. If not, steam may be released from the crack between the packing and the plate.

**Safety Packing**

Make sure to clean the clean steam went after/before use. Do not try to pull out the clean steam went and safety packing, clean it with care. Make sure the clean steam went and safety packing are installed completely after/before use. If the steam vent is detached, or not attached completely, please contact customer service.

**Inner Pot**

Wipe the water on the outside and bottom of the Inner Pot. A rough sponge, a brush or an abrasive can cause scratches on the coating. Use a dishwashing liquid and a soft cloth or a sponge.

* Keeping the contact area of the Inner Pot with the pressure packing always clean, increases the product’s durability.

**Moisture Dish of the Main Body**

Wipe the main unit with a wet cloth that has been extracted out of al water.

* Caution
  Do not clean the inner pot with any sharp cutlery inside (fork, spoon, chopsticks, etc.).
  - The coating of the inner pot may peel off.

**Inside of the Main body**

Make sure to clean the steam control went before and after use.

**Detachable cover & Pressure packing**

1. Handle must be turned to “ ”(Lock) during Cooking. When the lamp is turned on it means that it is ready to cook.

2. After cooking, turn the handle from “ ”(Lock) to “ ”(Unlock) turn the handle to open. If there is unreleased steam in the Inner pot it might be hard to turn the handle. In this case twist the pressure weight and let the excess steam out. Do not open by force.
   * Handle must be turned to “ ”(Unlock) when opening and closing.
   * If the lamp does not turn on, it would not operate the “COOK/TURBO” button. Make sure the handle is located in “ ”(Lock).
How to clean the pressure weight nozzle.

If the valve of the pressure part is clogged, puncture it with the cleaning pin

- The valve hole of the pressure weight allows steam to release. Check regularly to ensure that it not blocked. If the valve hole of the pressure weight is blocked, the hot steam and hot content within the cooker can cause serious injury.
  ※ Do not use the cleaning pin for any other use except to clean the valve hole of the pressure weight.

How to disassemble the pressure weight

- Under the Lock/Unlock handle is locked (located on "Lock") turn the pressure weight counter-clockwise while pulling it up, and pull it out.
- Puncture the clogged valve hole with the cleaning pin and reassemble it by turning it clockwise.
- When the pressure weight is properly assembled, it can freely be turned.

How to clean dew dish

- Detach the soft steam cap like the picture.
- Press the hooks in the front in direction of arrow to detach the bottom case. Clean the parts frequently with a sponge or a neutral detergent.
  ※ Before reassembling the packing with the bottom case, please make sure to put the packing into the packing groove.
  ※ In order to separate the steam cap into parts, please pull bottom part downward by pressing the extrusion parts on both sides.

When lid does not close perfectly

Do not try to close the lid by force. It can cause problems.

1. Check to make sure the inner pot is place correctly inside the main body.
2. To close the lid turn the handle to unlock, in shown in the picture on the right.
3. If there is excess steam inside the inner pot it might be difficult to lock the handle. Twist the pressure weight and allow the excess steam to release. Then try to turn the handle again.

This function is used to cancel a selection or release remaining Steam in the inner pot. (Refer to page 30)
When using Power saving function
(Refer to page 28)

PRESSURE CHECK
Button
This function is used to pressure checking
(Refer to page 22)

Voice guide volume control (The function which can control volume and cancel)

To enter this function, press ‘MODE’ button 3 times. ‘MODE’ button needs to be pressed for over 0.3 second at the first time.

‘3’ sign is displayed when entered volume control mode by pressing ‘MODE’ button 3 times.

- ‘MENU/SELECTION’ button blinks and ‘MODE’, ‘SET’ and ‘CANCEL’ buttons turn ON.

If set value became ‘OFF’ by pressing ‘SELECTION’ button, “VOICE ” blink and voice guide function is off.

Press ‘SELECTION’ button to change the volume from “1” to “5”.

- ‘SET’ button blinks and ‘MODE’, ‘CANCEL’ buttons turn ON.
- Keep the button pressed, and the button will turn to Continuous.
- Set to desired voice volume, and press ‘SET’ button.
- If it is over 7sec without ‘SET’ button, setting time will be canceled with voice, “Function setting has been canceled with overtime.”
How to set current time

ex) 8:25am now

1. Press ‘MODE’ button 2 times.
   - ‘MODE’ button needs to be pressed for over 0.3 second at the first time.
   - A voice comes up saying “Setting mode for current time. Touch and slide to set current time then press SET button.”
   - ‘MODE’, ‘SET’ and ‘CANCEL’ buttons turn ON.

2. Set o’clock and minute as pressing ‘SELECTION’ button.
   - 1 min up “” button
   - 1 min down “” button
   - 10 min up or down “ “ button
   - Careful of setting am,pm.
   - In case of 12:00 it is 12:00 pm

3. When finishing to set time you
   - ‘SET’ button blinks and ‘MODE’, ‘CANCEL’ buttons turn ON.
   - If it is over 7sec without ‘SET’ button, setting time will be canceled with “Function setting has been canceled with overtime.”, it is canceled due to overtime.

Night Voice Volume Reduction

Set the function of night voice volume reduction, the function to reduce the volume of voice during night time (10:00PM-05:59AM) on need-to-do basis. This function works only during night time.

- Night Voice Volume Reduction

\[
\begin{align*}
\text{OFF} & \quad \text{Zero volume} \\
\text{20%} & \quad \text{20% of voice volume} \\
\text{40%} & \quad \text{40% of voice volume} \\
\text{60%} & \quad \text{60% of voice volume} \\
\text{80%} & \quad \text{80% of voice volume} \\
\text{100%} & \quad \text{100% of voice volume}
\end{align*}
\]

Example) 60% of voice volume

1. Press ‘MODE’ button 12 times in standby status, and you will enter Night Voice Volume Reduction mode.
   When pressing ‘MODE’ button initially, press the button for 0.3 second or longer to enter Night Voice Volume Reduction mode.
2. When you enter Night Voice Volume Reduction mode, a voice comes up saying “Setting mode for night time volume. Touch and slide to set Night time volume then press ‘SET’ button”.
3. Press ‘SELECTION’ button, and as process progress bar change, voice volume will change. Select desired voice volume, and press ‘SET’ button.
4. Once process progress bar reach full condition through adjustment of ‘SELECTION’ button, a voice will come saying “Night time volume has been canceled.” Inactivate the function by pressing ‘SET’ button.
5. If ‘Set’ button is pressed or no button is pressed for 7 seconds after you enter Night Voice Volume Reduction mode, the function will be inactivated along with voice “Function setting has been cancelled with overtime.”, and the system will be back to standby mode.
BEFORE COOKING RICE

1 Use a dry cloth to clean inner pot.
   ▶ Use a soft scrubber to wash the inner pot.
   ▶ Do not use rough or metallic scrubber. Otherwise, coating will peeled off.
   ▶ Do not put anything that are metallic and sharp into the inner pot while cleaning. (Fork, spoon, chopsticks, knife, and etc.)

2 Use measuring cup to measure desirable cooking amount.
   ▶ Make the rice flat to the top of measuring cup and it is serving for 1 person. (ex: for 1 servings → 1 cups, for 3 servings → 3 cups)

3 Use another container to wash the rice.

4 Adjust water level.
   ▶ Place inner pot on the flat surface to adjust water level.
   ▶ The marked lines in the inner pot are water level.
     ① If you want to cook old or soft rice, pour more water than measured scale.
     ② Overcooked rice: pour less water than measured scale.
     ③ When rice is undercooked or firm/hard: It is caused by differences in rice varieties or water content (old rice). In this case, please add 1 ~ 10% of more water.
   ※ This model does not support SOFT GLUTIN.
   ※ The maximum capacity of each menu, refer to page 17.

5 Please plug the power cord before inserting inner pot in the rice cooker.
   ▶ Wipe off or remove any substances on the temperature sensor or bottom of the inner pot.
   ▶ Please place the inner pot correctly into the rice cooker.

6 Plug the power cord and turn the handle to “ожно”.
   ▶ The lamp turning on means closed perfectly.

How to use the cooking menu

HOW TO COOK

1. Choose menu with ‘SELECTION’ button.
   - Please mount detachable cover.
   - Please keep ‘Pressure weight’ horizontal.
   - Each time ‘MENU/SELECTION’ button is pressed, the selection switches in the sequential order: GLUTIN. RICE → SUPER GRAIN → MIXED RICE → GLUTIN. RICE → MIXED RICE → HIGH HEAT GLUTIN. RICE → BROWN RICE → HIGH HEAT BROWN RICE → BABY FOOD → LOW PRESS STEAM → HIGH PRESS STEAM.
   - The one of following cooking menu modes: GLUTIN. RICE, MIXED RICE, BROWN RICE, HIGH HEAT GLUTIN. RICE will initiate the high temperature cooking of each cooking menu mode.
   - Pressing the ‘HIGH HEAT’ button within 5 seconds after proceeding the one of following cooking menu modes: GLUTIN. RICE, MIXED RICE, BROWN RICE will initiate the high temperature cooking of each cooking menu mode.
   - In the cases of GLUTIN. RICE, HIGH HEAT GLUTIN. RICE, MIXED RICE, HIGH HEAT BROWN RICE, BABY FOOD, LOW PRESS GLUTIN. RICE, HIGH HEAT BROWN RICE, BROWN RICE, BROWN RICE, SUPER GRAIN the menu remains memorized once each cooking is completed, so for continuous use of the same menu, no selection of menu is required.
   - Please mount detachable cover.
   - Pressing the ‘DIRECT TOUCH’ button of each cooking menu mode.
   - Please keep “Pressure weight” horizontal.
   - Each time ‘MENU/SELECTION’ button is pressed, the selection switches in the sequential order, LOW PRESS GLUTIN. RICE will be immediately proceeded to start cooking by pressing the ‘DIRECT TOUCH’ button of each cooking menu mode.
   - Please keep “Pressure weight” horizontal.
   - If the button is pressed, repeatedly, the menu switches continuously in sequential order.

2. Start cooking by pressing ‘COOK/TURBO’ button.
   - You must turn lid handle to lock before cooking.
   - When mixing other rice with Glutinous, the Melanoizing phenomenon could increase more than “Glutinous cook” setting.
   - Start cooking by pressing ‘COOK/TURBO’ button, and sound “GLUTIONUS RICE, Cuckoo starts cooking at a pressure of 2 atmosphere.”.
   - Unless lid handle is not turned to close, you get alarm with “E 9 ! ”, and sound “Close the lid then turn the handle to the lock position.”
   - The actual cooking time may vary depending on the cooking capacity, water temperature, and cooking conditions.
   - While cooking, do not press cancel button.
   - When cooking is completed, warming will start with the voice “Glutinous rice has been completed.”.
   - If you want to stop warming, Push ‘CANCEL’ button for more than 0.3 seconds.
   - When cooking ends, stir rice equally and immediately. If you don’t stir rice at once and keep it stagnant, rice will go bad and smell bad.
   - If the lid handle is not working well, take out the steam completely out of inner pot by turning over pressure weight.
   - If the lid handle is not working well, take out the steam completely out of inner pot by turning over pressure weight.
   - If you want to stop warming, Push ‘CANCEL’ button for more than 0.3 seconds.
   - When cooking ends, stir rice equally and immediately. If you don’t stir rice at once and keep it stagnant, rice will go bad and smell bad.
   - If the lid handle is not working well, take out the steam completely out of inner pot by turning over pressure weight.
   - While cooking, do not press cancel button.

3. Steaming.
   - The cooktime remaining on the display is shown from cooking thoroughly.
   - The cook time is different according to the menu.
   - The cook time is different according to the menu.
   - Be careful not to burn yourself from the automatic steam outlet.
   - The cooktime remaining on the display is shown from cooking thoroughly.
   - The cook time is different according to the menu.
   - Be careful not to burn yourself from the automatic steam outlet.

4. The end of cooking
   - When cooking is completed, warming will start with the voice “Glutinous rice has been completed.”.
   - If you want to stop warming, Push ‘CANCEL’ button for more than 0.3 seconds.
   - When cooking ends, stir rice equally and immediately. If you don’t stir rice at once and keep it stagnant, rice will go bad and smell bad.
   - If the lid handle is not working well, take out the steam completely out of inner pot by turning over pressure weight.
   - While cooking, do not press cancel button.

Melanoizing phenomenon

The cooked rice can be light yellow at the bottom of the oven, because this product is designed to improve pleasant flavor and taste. Especially, melanoizing is more serious at the “Preset cooking” than just “Cooking”. It does not mean malfunction.

* When mixing other rice with Glutinous, Melanoizing phenomenon could increase more than “Glutinous cook” setting.
MY MODE (CUCKOO Customized Taste Function)

What is “MY MODE”?
- CUCKOO’s patented technology based on variable circuit design. User can select the degree of “softness” and “glutinosity & tastiness” to meet a user’s desire.

How to Use “MY MODE”
- Longer “SOFT” Time : rice becomes soft and glutinous. (selectable in 4 steps)
- Longer “SWEET” Time : rice becomes tastier (selectable in 4 steps) [melanoizing will occur]
- Both functions above can be selected simultaneously or separately

How to Use “MY MODE”
To enter “Customized Rice Taste Setting Mode”, select the menu in which Customized Rice Taste is supported such as GLUTIN RICE, HIGH HEAT GLUTIN RICE, MIXED RICE, HIGH HEAT MIXED RICE, BROWN RICE, HIGH HEAT BROWN RICE, GABA RICE, Nu Rung Ji, SUPER GRAIN and press the ‘MODE’ button for 0.3 second or longer.

1. “MENU” setting screen
2. “MY MODE” setting screen
3. Soft time control mode
- Select desired swelling time by pressing the button.
4. Setting completed screen after
- Set up desired customized rice taste. And press “SET” button. (If you press ‘CANCEL’ or do not press a button within 7 seconds, the function will deactivate and return to the standby mode.)

Cuckoo customized cooking function
While cooking you can control the heating temperature (both high an low) depending on, your preference.
Initialization is set up “” get step by step as the case may be.
- High step : for cooking cereals, old rice and soft-boiled rice.
- Low step : for cooking the year’s crop of rice

How to use Cuckoo Customized cooking function
1. If you press the ‘MODE’ button 6times, customized cooking function is setup.
2. “MY MODE” setting screen
- High level mode
- Push the ‘SELECTION’ button, then the screen will be changed as above picture.
3. “MENU” setting screen
- Low level mode
- Push the ‘SELECTION’ button, then the screen will be changed as above picture.

1. CUCKOO customized cooking function applies to GLUTIN RICE, HIGH HEAT GLUTIN RICE, TURBO GLUTIN RICE, MIXED RICE, HIGH HEAT MIXED RICE, TURBO MIXED RICE, BROWN RICE, HIGH HEAT BROWN RICE, GABA RICE, LOW PRESS GLUTIN, SUPER GRAIN
2. Set up the step of customized cooking function to taste. The scorch can occur when cooking in high level mode.
3. Cook is subject to be set differently depending on the percentage of water content and the condition of rice.
WHAT IS GERMINATED BROWN RICE?

Brown rice has richer nutrients than polished rice. However, brown rice is rather tough and hard to be digested. By germination, the enzymes in the brown rice are activated, generating nutrients, and are easier to digest.

USING “GABA” MENU

1. In order to promote germination, soak brown rice for 16 hours in water
   - Method of Pre-germination
     ▶ Put washed brown rice in an appropriate container, pour sufficient amount of water to soak the rice.
     ▶ Pre-germination shall not exceed 16 hours. Make sure to rinse the rice clean with flowing water before using “GABA” menu. Be careful not to rinse too much or else the embryos that are required to germinate may wear off.
     ▶ Unique smell may be generated according to the soaking time of pre-germination
     ▶ When pre-germination has been completed, wash the rice and insert the inner pot. Pour appropriate amount of water and use “GABA” menu.
     ▶ When cooking in summer or hot temperature environment, an odor may be generated. Reduce germination time and wash clean when cooking.

2. Turn the Cover Coupling Handle toward “ ” (Lock), and press the Select button to select GABA RICE.
   - When GABA RICE is selected, 3H will be displayed on the display panel.

3. Press the COOK/TURBO button.
   - If you press the COOK/TURBO button or the SET button and press the COOK/TURBO button, Gaba Rice mode will be activated for the set time, and it will start cooking immediately after completing germination.
   - The ‘COOK’ icon will be displayed along with the remaining time.

PRECAUTIONS FOR GABA RICE

1. If smaller germ is preferred, omit pre-germination process. Select “GABA RICE” menu, time, and start cooking (nutrients ingredients do not vary significantly by the size of germ).
2. GABA RICE cooking feeds up to 4 people.
3. City water can be used for germination. However, filtered or drinkable water is recommended.
   - Germination may not be properly performed in hot or boiled water even after cooking.
4. Germination rate and germ growth may differ by the type of brown rice, condition, or period of storing.
   - The brown rice should be within 1 year from harvest, and not long since pounded.
5. In GABA mode, preset on 3H may not be possible. If you want to preset the GABA, set up BROWN RICE menu.
6. The taste of rice could be different depending on a kind of brown rice. Use customized taste function or control the amount of water for your taste.
7. Depending on the user’s environment or the condition of the rice, the sprout may not be visible.

HOW TO MAKE MORE CRISPY NURUNGJI

When cooking with “Nurungji” option, you can scorch the cooked rice on the bottom in different levels according to your preference.

- How to set More Crispy Nurungji function (This mode is selected ‘OFF’ when the product is delivered from the factory)
  1. In the Standby mode, press the ‘MODE’ button 8times to enter More Crispy Nurungji setting mode.
     (‘MODE’ button needs to be pressed for over 0.3 second at the first time.)
  2. When you press the ‘SELECTION’ button, More Crispy Nurungji setting function will be selected or canceled.
  3. After doing your desired setting, if you press the SET button, the setting will be saved.
  4. If you press the CANCEL button or 7 seconds have passed without any button’s being pressed, the function will be canceled.
What are supergrains?

Supergrains have a better nutritional balance than that of rice, and contain an abundance of various vitamins, minerals, antioxidants, and dietary fiber. It is a good alternative to rice, and is an excellent nutritional source for supplementing nutrition.

Characteristics of Supergrains

1. Kamut (for antioxidant effects): Kamut contains selenium, which removes active oxygen from your body.
2. Oats (for preventing constipation): Oats possess rich unsaturated fatty acids and fiber.
3. Chick peas (for weight loss): Chick peas contain arginine, which helps burn fat and expand blood vessels.
4. Green lentils (for recovery from fatigue): Green lentils contain rich protein, Vitamin B, and iron.
5. Quinoa (for preventing adult diseases): Quinoa possesses unsaturated fatty acids, which reduce cholesterol.

How to Use Supergrain Menu

1. Turn the Cover Coupling Handle toward “ ” (Lock), and press the Select button to select Supergrain.
   - When the Supergrain menu is selected, 0H is displayed on the Display.

2. Press the SET button, and set the time with the Select button.
   - Every time you press the right Select button or the left Select button, the supergrain soaking time is repeatedly selected to be 0H (0 hour) or 3H (3 hours).
   - The supergrain soaking time can be selected to be 0 hour or 3 hours.

3. Press the Cook/Turbo button.
   - When you press the Cook/Turbo button or the SET button and press the Cook/Turbo button, soaking begins for the set time. When the soaking is completed, cooking immediately begins.
   - During soaking, ‘Cook’ is displayed, along with the remaining time.

Precautions for Cooking Supergrains

1. When cooking supergrains, use the Mixed Grains Water Level. You can cook up to four servings.
2. There may be differences in melanizing or rice condition depending on the kind of supergrain. Adjust the water volume to suit your taste, or use the Customized Taste function.
3. In case of the Supergrain menu, reservation is not available.
4. When you cook hard grains, select 3H (3 hours) for soaking before cooking.
5. If you want softer texture, cook by the following method.
   - When you cook ‘chick peas,’ soak chick peas for four to six hours at room temperature before cooking.
   - When you cook ‘oats,’ soak oats for 30 minutes to one hour at room temperature before cooking.
6. When cooking is finished and the product has warmed, mix the cooked rice well.

Precautions for Cooking Kamut

1. Separately wash kamut and rice. Put kamut in the Inner Pot (in order to soften kamut’s texture), and then put rice in the Inner Pot. Then, adjust the water volume with the Mixed Grains Water Level.
2. Select the Supergrain Menu, and set the soaking time to be 3H (3 hours) with the Select button, and then press the Cook/Turbo button.
3. When cooking is finished and the product has warmed, mix the cooked rice well.
HOW TO COOK LOW/HIGH PRESS STEAM

Coupling Handle toward “✓” (Lock), and press the Select button to select low-pressure steaming or high-pressure steaming.

▶ The SET button blinks, and the Cancel button and the Cook/Turbo button are turned on.

▶ When the Low-Pressure Steaming menu or the High-Pressure Steaming menu is selected, the time is displayed on the Display.

Press the SET button, and set the cooking time with the Select button.

▶ The Reserve button, the Cancel button, and the Cook/Turbo button are turned on.

The Voice Guide will say, “Set the cooking time with the slide touch, and press the Cook button.”

▶ Press the SET button, and the Voice Guide will say, “Press the Cook button or the Reserve button.”

Press the Cook/Turbo button.

▶ The Cook/Turbo button blinks, and the Setup button, the SET button, the Keep Warm/Reheat button, the Reserve/Auto Clean button, the Pressure Check button, and the Cancel button are all turned on. Press the Cook/Turbo button, and the low-pressure steaming or the high-pressure steaming begins.

When low-pressure steaming or the high-pressure steaming begins, “Cook” is displayed, along with the remaining time.

How to Reserve Low-Pressure Steaming or High-Pressure Steaming

1. Check if the current time is correct.
2. Turn the Cover Coupling Handle toward “✓” (Lock), and press the Reserve/Auto Clean button.
3. Press the Select button, adjust the cooking finish time, and press the SET button.
4. Press the Select button, select the low-pressure steaming or the high-pressure steaming, and press the SET button.
5. Press the Select button, select the time for low-pressure steaming or the high-pressure steaming, and press the SET button. Then, press the Cook/Turbo button.
How to Use Pressure Check

This is a function to check if pressure has leaked or the steam discharge apparatus is defective by checking the pressure in the product.

1. Press the Pressure Check button in the Standby mode.
   - The Voice Guide will say, “This is the Pressure Check function. Add water up to Glutin Water Level 2, and press the Cook button or the Pressure Check button.”
   - The Cook/Turbo button and the Pressure Check button blink, and the Cancel button is turned on.

2. Add water to the Inner Pot up to Glutin Water Level 2, put the Cover on, and turn the Cover Coupling Handle toward “ ” (Lock).

3. Press the Pressure Check button or the Cook/Turbo button, and pressure check begins.
   - The Voice Guide will say, “CUCKOO begins pressure check.”
   - If you press the Cook/Turbo button without turning the Cover Coupling Handle toward “ ” (Lock), pressure check is not performed.
   - The remaining time and the actual pressure are displayed at regular intervals.

4. When the pressure check result is good, “Good” is successively displayed.
   - The Voice Guide will say, “The pressure is normal. Perform pressure check on a regular basis to ensure a great taste every time.”

5. When the pressure check result is poor, “EP1 ~ EP6” blinks.
   - The Voice Guide will say, “Check the packing, perform the pressure check again, and if there is any problem, contact our Customer Service Center.”
   - It appears when the packing is aged or pressure is leaked because of foreign substances on the packing. Check the packing and perform the pressure check again.
   - If the packing is not defective, contact our Customer Service Center.

6. How to Turn Off Pass or Fail Display
   - When Pass or Fail is displayed, this indication will automatically be turned off in one minute.
   - Press the Cancel button, and it will be immediately canceled.
   - Turn the power ON, and it will be canceled.

Precautions for Using Pressure Check

1. Adjust water level to Glutin Water Level 2.
2. Use water at a temperature of 10-30℃.
3. Perform the pressure check when the product has cooled down.
   - No accurate pressure check can be performed when the product is heated (right after cooking is finished, right after keeping warm is finished).
4. The indicated pressure may be different from the actual pressure.
How to use Preset Reheating function

Use this function when the cooked rice is not kept warm in the rice cooker but you still want to enjoy a hot meal at your convenience.

It takes three hours before it’s fully warmed up: Please use the function at least three hours before you enjoy your meal.

For example, if it is nine o’clock in the evening and you want to have warm breakfast at seven forty the next morning:

1. Make sure that the current time is correct.
   - Refer to page 15 for how to set the current time.

2. Turn the lid handle to the lock position and a lock icon will be displayed on the screen. Then press the ‘PRESET/AUTO CLEAN’ button.
   - If you press the PRESET/AUTO CLEAN button without turning the Lock/Unlock handle toward ‘Lock,’ the presetting will not be conducted.

3. Press the ‘WARM/REHEAT’ button and Preset Reheating mode begins.

4. PRESS the SELECTION button to preset the completion hour of reheating
   - The preset time is increased by 10 minutes each time you press the “►” button.
   - The preset time is decreased by 10 minutes each time you press the “◄” button.

5. Press the ‘SET’ button.

6. Press the ‘WARM/REHEAT’ button.
   - Reheating is completed as scheduled.
   - The cooker memorizes the hour that you have preset: You may press the ‘WARM/REHEAT’ button directly without having to preset the time again from the beginning.

※ Please be careful not to change from AM to PM.
※ When the current time is not correct, set the current time correctly.
Precautions for PRESET / PRESET REHEATING Cooking

1 Precautions for Preset Cooking

- If the rice is old and dry, the result may not be good.
- If the rice is not well cooked, add more water by about half-scale.
- If the preset time is longer, melanization could be increased.
- Washed rice has a lot of settled starch, and crust can be made in case of preset cooking.
  If you wash the washed rice in running water before cooking or make the quantity of rice small, the crust will be less.

2 Precautions for preset reheating

- When leaving cooked rice at ambient temperature for a prolonged period of time, moisture is evaporated from cooked rice. In such a case, the reheating preset may cause dehumidifying or melanosing (slightly burnt) of cooked rice.
- If there is an excessive amount of cooked rice in the pot, it may not sufficiently be reheated.
  It is recommended to set reheating for no more than 3 people. (approx. half of the inner pot)
- Reheating of cold- or frozen-stored cooked rice may cause insufficient heating, dehumidifying or melanosing (slightly burnt) after completion of reheating.
- Put cold-stored cooked rice into the inner pot, beat rice with a scoop, and then reheat rice.
- Reheating of frozen-stored cooked rice shall be performed only after thawing the rice.

3 Changing preset time.

- Press ‘CANCEL’ button for more than 0.3 seconds and restart it to change the preset time.

4 If the preset time is shorter than available range.

- If the preset time is shorter than the available range, cooking/reheating will begin immediately.

5 In case the preset time is over 13 hours.

- “13hΟ” will be displayed and the preset time will be changed to 13 hours automatically. If cooking is preset to AM07:00 of the following day at PM5:00 of the day, where preset time is 14 hours, “13hΟ” will be displayed, and preset time automatically changes to AM06:00. (Maximum preset time is 13 hours)

※ If the preset time is over 13 hours, it can cause bad smell and discoloration.
  The limited preset time is set up to be under 13 hours because the rice spoils easily during the summer time.
※ When you want to finish presetting at 12:00 p.m., preset the time to be 12:00 p.m.
※ Use this function when you want to finish cooking between 1 hour to 13 hours after the current time.
※ During the preset cooking, if you want to check the current time, press the SET/MODE button.
  Then, the current time will appear for about two seconds.

**TO KEEP COOKED RICE WARM AND TASTY**

**Having a Meal**

- If you want to have warm rice, press the ‘WARM/REHEAT’ button. Then ‘Reheat’ function will be started and you can eat fresh rice in 9 minutes.
- To use reheating in standby status after power is applied, turn lid combining hand grip to Locked location, press ‘WARM/REHEAT’ button, and the cooker will convert to Heat Preservation mode. Here press “WARM/REHEAT” button once more.

**KEEP WARMING**

- The frequent use of the “Reheat” function may cause the cooked rice to be discolored or dried. Use it once or twice per day.
- If a separate heating appliance or gas burner is used to cook rice, put the cooked rice into the cooker and press the “WARM/REHEAT” button to keep the rice warm. At this time, “W” is shown on the display. (Like this, transferring hot rice to a cold cooker may cause the rice to be discolored or develop an odor)
- After 24 hours of heat preservation, the lamp of heat preservation time lapse blinks, indicating that long time has passed in heat preservation condition.
- In case the lid combining hand grip is in open status during heat preservation, the cooker does not go for reheating. For reheating, lock the lid combining hand grip to (Locked) position, and then press “WARM/REHEAT” button.
- If the lid combining hand grip is turned to open status during reheating, function display will show “”. At this time, reheating will be cancelled, and heat preservation will proceed.

**Controlling Method of Warming Temperature**

If the temperature in the rice cooker is not set properly, an odor or the color of the rice may change even though it is cleaned frequently and boiled up. Temperature needs to be set.

1. When you smell bad odors and the rice is too watery: The keep warm temperature is too low. In this case, increase the “Keep Warm” temperature by 1-2℃.
2. When the rice has a yellowish color or is too dry: The Keep Warm temp is too high. In this case, decrease the “Keep Warm” temperature by 1-2 ℃.

**Device Temperature Control**

1. When you smell bad odors and the rice is too watery: The keep warm temperature is too low. In this case, increase the “Keep Warm” temperature by 1-2℃.
2. When the rice has a yellowish color or is too dry: The Keep Warm temp is too high. In this case, decrease the “Keep Warm” temperature by 1-2 ℃.
How to Operate My Mode Function.

Use it while opening the lid when there is too much water or rice becomes too soft.

1. In standby mode, push the ‘MODE’ button 5 times. The voice says that it is programmed warming mode, control the temperature you want.

2. Press the right select button.

3. If you set your desired temperature and press the SET button, the set temperature will be entered automatically. (When you press the CANCEL button or 7 seconds have passed without any button’s being pressed, the function will be canceled.)

How to activate “SLEEPING” mode.

When keeping rice warm for a long time, set up the temperature low to prevent the following quality of rice: smelly, dry, change of color; from PM10:00 ~ AM 04:00.

► How to set up

1. Press the MODE button in mode 7 to access the sleeping mode settings. ('MODE' button needs to be pressed for over 0.3 second at the first time.)
2. When you press the ‘SELECTION’ button, the Screensaver function will be selected or canceled.
   After doing your desired setting, if you press the SET button, the setting will be saved.
3. If you press the CANCEL button or 7 seconds have passed without any button’s being pressed, the function will be canceled.

► How to release

1. Press the MODE button in mode 7 to access the sleeping mode settings. ('MODE' button needs to be pressed for over 0.3 second at the first time.)
2. When you press the ‘SELECTION’ button, the Screensaver function will be selected or canceled.
   After doing your desired setting, if you press the SET button, the setting will be saved.
3. If you press the CANCEL button or 7 seconds have passed without any button’s being pressed, the function will be canceled.

► If you need to keep the rice warm during sleeping, do not use this function. This function makes the rice cooler than normal. In summer, the rice can be spoiled and may smell bad because of high temperature. If possible, do not use the “Custom-made warming” mode while sleeping.

► This function is set up as cancel state.
Cook tasty rice with Cuckoo pressure rice cooker

For the best taste of rice, check the following points carefully.

| When measuring the rice, use the measuring cup. (The amount of the rice may vary depending on the quality of the rice.) Place the inner pot on a flat surface and adjust the water to water level in the inner pot. | When measuring the rice, use the measuring cup. (The amount of the rice may vary depending on the quality of the rice.) Place the inner pot on a flat surface and adjust the water to the water level in the inner pot. |
| If possible, buy a small amount of rice and keep the rice some place where it ventilates well and avoids a direct ray of light. It can prevent evaporation of rice moisture. If the rice has been unsealed for long, rice can be dry and stale. In this case, you should pour half of water more. It’s tastier. | If possible, buy a small amount of rice and keep the rice some place where it ventilates well and avoids a direct ray of light. It can help prevent evaporation of rice moisture. If the rice has been unsealed for long, rice can be dry and stale. In this case, you should pour half of water more. It’s tastier. |
| If possible, do not use the preset time function when rice is too dry and pour the half of water more. If you set “Preset” over the 10 hours or “Preset” dried rice, rice can be crisp or half cooked. Even worse condition, rice can be cooked different tastes each level. | If possible, do not use the preset time function when rice is too dry and pour the half of water more. If you set “Preset” over the 10 hours or “Preset” dried rice, rice can be crisp or half cooked. Even worse condition, rice can be cooked different tastes each level. |

| Wipe the top cover heating part well for any rice or external substance. | Wipe the top cover heating part well for any rice or external substance. |
| If rice is kept warm for a long period of time, rice color and the odor will change. It’s better to set “warm” less than 12 hours. | If rice is kept warm for a long period of time, rice color and the odor will change. It’s better to set “warm” less than 12 hours. |

Cautions for Keeping Warm

| It will be hard to open the lid during warming, or right after it has finished cooking. So push the pressure weight to the side and allow the steam to release. Make sure the handle is in the “Lock” position during warming or reheating. | It will be hard to open the lid during warming or right after it has finished cooking. So push the pressure weight to the side and allow the steam to release. Make sure the handle is in the “Lock” position during warming or reheating. |
| It is recommended to evenly stir the cooked rice after cooking. The rice taste is improved. (For a small quantity of rice, pile up the rice on the center area of the inner pot to keep warm) | It is recommended to evenly stir the cooked rice after cooking. The rice taste is improved. (For a small quantity of rice, pile up the rice on the center area of the inner pot to keep warm) |
| Do not keep the scoop inside the pot while warming the rice. When using a wooden scoop it can create serious bacteria and odors. | Do not keep the scoop inside the pot while warming the rice. When using a wooden scoop it can create serious bacteria and odors. |
| Do not mix small amount of rice or leftovers with the rice under keeping warm. Doing so may cause an odor. (Use a microwave oven for the cold rice.) | Do not mix small amount of rice or leftovers with the rice under keeping warm. Doing so may cause an odor. (Use a microwave oven for the cold rice.) |

When Odors are Rising During the Warming Mode

- Clean the lid frequently. It can cause growth of bacteria and odors.
- Even though exterior looks clean, there might be germs and it can cause odor so please be sure to use automatic sterilization (steam cleaning) menu for cleaning. Clean the inner pot completely after automatic cleaning function is done.
- Clean the inner pot properly to prevent rice from smelling after you cook soups and steamed dishes.
What is POWER SAVE mode?
If power cord is not unplugged, little bit of electricity will be still wasted. It is called standby electric power. The power SAVE mode is technology which minimizes this electricity consumption.

Manual Method

▶ How to start power saving
When ‘CANCEL’ button is pushed for 3 seconds at waiting state, Saving power function is set up.

▶ How to end power saving
Method 1) Push any button then it will be returned to waiting mode.
Method 2) If lid handle is turned to open or close, power saving mode will be canceled and back to waiting Mode.

Automatic Method
If the standby time is chosen as number other than “OFF” at the automatic power saving mode, the automatic saving power function will be operative. If you move lid handle or push any button before passing waiting time, the waiting time which is reduced will go back to the setting.

▶ How to set up

1. If you push ‘MODE’ button 9 times at the standby state, automatic power saving mode is set up. (‘MODE’ button needs to be pressed for over 0.3 second at the first time.)
2. After doing your desired setting, if you press the SET button, the setting will be saved.
3. If you press the CANCEL button or 7 seconds have passed without any button’s being pressed, the function will be canceled.

Energy Eye function
The luminance sensor automatically recognizes ambient brightness during, warming and preset timer for minimizing power consumption of the product. If you want the power saving mode to start when it’s darker than the current level(Step 2), set the mode to Step 1. If you want the mode to start when it’s brighter than the current level, set the mode to Step 3. (The power saving mode of CUCKOO is set to Step 2 at the factory.)

1. Press the ‘MODE’ button 13 times in standby status and you will enter the Energy Eye mode. (‘MODE’ button needs to be pressed for over 0.3 second at the first time.)
2. Each time you press the ‘SELECTION’, the Energy Eye shifts from OFF to Step 1 to Step 2 to Step 3. When OFF is displayed, a voice comes up saying “The Energy Eye function is canceled”.
3. After selecting your desired step, press the SET button to save the set value.
4. If you press the CANCEL button or 7 seconds have passed without any button’s being pressed, the function will not be set but canceled.
HOW TO USE POWER SAVE SCREEN LIGHT / LOCK BUTTON / REMAINING COOKING TIME DISPLAY MODE

Display POWER SAVE SCREEN LIGHT Mode
This mode adjusts the brightness of the display during cooking, warming or reservation cooking.

▶ How to set and unset the mode
(This mode is selected ‘On’ when the product is delivered from the factory)

1. In the Standby mode, press the ‘MODE’ button 10 times to activate the Display POWER SAVE SCREEN LIGHT mode. ('MODE' button needs to be pressed for over 0.3 second at the first time.)
2. When you press the ‘SELECTION’ button, the Screensaver function will be selected or canceled.
3. After doing your desired setting, if you press the SET button, the setting will be saved.
4. If you press the CANCEL button or 7 seconds have passed without any button’s being pressed, the function will be canceled.

How to Set “LOCK BUTTON”
Lock can be set for touch button to prevent accidental touch during cleaning or by children.

▶ How to set up

1. Button will be locked if ‘SET’ button is pressed for 2 seconds or longer during cooking, presetting, warming, reheating or in standby condition.
2. When set, the Button Lock display will flicker on the screen.

▶ How to release

1. Button will be released if ‘SET’ button is pressed for 2 seconds or longer during cooking, presetting, warming, reheating or in standby condition.
2. When released, the Button Lock display will disappear on the screen.

※ Any button other than ‘SET’ button is pressed while button lock is set, buzzer will sound.
※ Press the SET button for 2 seconds or longer to cancel the button lock and set the desired function.
※ Button lock function is cancelled automatically when the power is OFF even though the button lock function is already set.

Remaining Cooking Time Display Mode
This mode sets on or off the remaining cooking time display which appears periodically during the cooking.
(The displayed remaining cooking time may vary from the actual one depending on the cooking volume and process.)

1. In the Standby mode, press the ‘MODE’ button 11 times to activate the Remaining Cooking Time Display mode. ('MODE' button needs to be pressed for over 0.3 second at the first time.)
2. If you press the CANCEL button or 7 seconds have passed without any button’s being pressed, the function will be canceled.

※ Remaining Cooking Time Display mode set on
※ Remaining Cooking Time Display mode set off
If there is a problem with your cooker, check the following details before requesting service to your dealer. Sometimes the cooker may not operate as desired if used incorrectly.

### Recipe

#### Recipe Ingredients

**SUPER GRAIN**
- Green Lentil Rice
  - Rice 2 cups, green lentil 1 cup
  - (The ratio between rice and green lentil is desirable to be 7:3.)
- Quinoa Rice
  - Rice 2 cups, quinoa 1 cup
  - (The ratio between rice and quinoa is desirable to be 7:3.)

**PORRIDGE**
- White Porridge
  - Thick porridge: Rice 1 cup
  - Thin porridge: Rice 0.5 cup
- Pine Nut Porridge
  - Rice 1 cup, pine nut 1/2 cup and some salt
- Abalone Porridge
  - A cup of rice, 1 tablespoonful of sesame oil, 1 piece of abalone, a little bit of salt
- Special Chicken Porridge
  - Rice 1 cup, chicken 100g, chicken soup 300cc, green pepper 1 unit, red pepper 1 unit and some salt
  - Seasoning: Chopped scallion 1 tablespoon, crushed garlic 1 tablespoon, soy sauce 2 tablespoons, some ground sesame mixed with salt, sesame oil 2 teaspoons and some ground pepper
- Red Bean Porridge
  - Rice 2/3 cup, 1/3 cups of red bean, 2/3 cups of glutinous rice

**BABY FOOD**
- Sweet Potato Apple Porridge
  - 70g of Sweet potato, 70g of apple, 2 Tablespoon, some honey
- Sweet Pumpkin Soup
  - 70g of Sweet potato, 70g of apple, 2 Tablespoon, some honey
- Tuna vegetable Soft Rice
  - 50g of rice, 30g of tuna (can), 10g of paprika, 10g of carrot, 1/2 cup of water, some butter, some laver powder
- Steamed Rice, Tofu, and Vegetables
  - 50g of rice, 30g of bean curd, 10g of carrot, 10g of green pumpkin, 1/2 egg, Milk 4 tablespoons

**Directions**

1. Wash rice and super grains, add them into the Inner Pot, and add water up to Mixed rice Water Level 3.
2. Put the Cover on, select the SUPER GRAIN menu with the SELECTION button, set the soaking time to be 0 hour, and press the COOK/TURBO button.
3. If you want super grains to become softer, soak them in water before cooking.
